from the C. M. & St. P. freight trestle over Rock river just south of the Fourth avenue bridge, this city, making it impossible to use it Thursday. Fear is held for its safety.

1,000 Poles Are Down
Reports to the Janesville office of the Wisconsin Bell Telephone company are that 1,000 poles are down in the vicinity of Appleton because of sleet. Trouble with telephone lines is felt in the south-east part of the state to Wausau and diagonally across to Mineral Point, taking in this section.

Four families dwelling in the low district of Sugar river near Albany, forced to make Wednesday in terror of water in their cellars reaching the first floor. All territory in the valley near Albany is flooded. From 3 to 6 a. m. Thursday, Sugar river rose six inches, the highest since 1915's big flood. Robins hovered over the crest of the waves.

Small Bridges Endangered
Reports from Belleville and Monticello were that, while water is high, no serious damage has been done. Report that the dam at Belleville had gone out proved unfounded.

Several acres of land east and north of the Rock County Sugar beet factory, Janesville, were flooded up to Bab's brewery. The current was swift, and the water mark came within close to the level of small bridges over roads in that section. A family living on Eastern avenue was surrounded by water. The Rock County Jail, near Third street running back to the river, were good for boating.

FLOODS FOLLOW RAINS IN NORTHWESTERN IOWA

Dubuque, Ia.—Railway service and wire communication throughout northeastern Iowa were seriously interrupted by floods resulting from heavy rains Wednesday.

Extent of flood damage could not be ascertained, as telephone lines are out of commission.

Reports from Owsen, Winnebago county, Thursday morning, said the Rock Island and Milwaukee roads had virtually discontinued service in several counties because of high water.

DELAVAL MOTOR CARS STALLED BY GLAZE

Delavan.—Automobiles were unable to negotiate the hill at the State school for the Deaf here Tuesday because of the heavy sleet storm. At one time, five cars were stalled, some of them having skidded completely around.

DISCOVERED BODY OF LITTLE RIVER VICTIM

Rockford.—Flood victims of Keith creek had reached two feet Thursday morning and the situation was much improved. Many families who were marooned Wednesday were able to leave their homes.

The body of John Norman, five year old, who was swept to his death when he fell or was pushed into the creek by a playmate, was recovered Thursday morning.

MILLION DOLLAR DAMAGE PREDICTED IN MICHIGAN

Detroit.—Effects of the storm of Tuesday night and early Wednesday still were being felt in various parts of Western and Northern Michigan today. Reports today indicate the total damage will reach approximately \$1,000,000.

Telephone and telephone service to the northern part of the lower Michigan and the upper peninsula showed little improvement today, miles of poles

have been snapped under the weight of ice-coated wires. Power lines in various sections also were down, big steel towers buckling and snapping off. In one stretch of 14 miles north of Bay City, 33 steel towers collapsed, while north of Grand Rapids all transmission lines were reported out of service.

Hundreds of basements in Muskegon Heights were flooded when overcast storm sewers failed to function. At White Hall, north of Grand Rapids, many families were rescued by row boats from their flooded homes.

HEAVY DAMAGE IN WESTERN WISCONSIN

La Crosse.—Damage estimated at several hundred thousand dollars was done rural and long distance telephone lines by the rain and sleet storm which has raged without abatement in western Wisconsin for two days.

All lines are down east and south-east of La Crosse. Hundreds of poles were snapped off by the weight of ice on cross-arms and wires and in many places, huge trees fell across the lines. Lowland farms are flooded and farmers are moving livestock to higher land. Basements in La Crosse are filled with water and in outlying sections of the city several families have been forced from their homes. A flood at Freeburg has suspended traffic on the Milwaukee road between La Crosse and Calcaedonia.

ROCKY MOUNTAIN REGION GRIPPED BY COLD WAVE

Denver.—The greater part of the Rocky Mountain region Thursday was in the grip of a cold wave of moderate intensity extending from Montana and Wyoming, south to Colorado and Kansas. Wyoming, with temperatures between 12 and 16 below zero, bore the brunt of the wave, which was accompanied by a general snowfall.

Club Meets Saturday: The Saturday Afternoon Bridge club will meet this week with Mrs. George Xahn Jr., Milwaukee avenue.

Play at Meeting: The Drama club met Wednesday night at Janesville theater. A one-act play was produced, entitled "The Baby Carriage." The following had parts: Mesdames Bert Rutler, William Ashcraft, Henry Hansen and Miss Sue Hutchinson. They were all members of the Eastern Star class, which produced the play two weeks ago. They were all in costume and were well received by the audience. Miss Isabel Smith read a four-act play, "Nice People," by Rachel Crothers, and at ten o'clock Miss Ella Jacobs and Miss Mabel Greenman, who were hostesses for the occasion, served cakes and coffee. The next meeting will be held in three weeks at the same place.

Miss Devlin Entertains: Miss Georgia Devlin, 216 Locust street, entertained a girl friends at a dinner party Wednesday night. Dinner was served at six o'clock at one table, made attractive with pink and white spring flowers. Place cards and other decorations were also in pink and white. Each guest was presented with a corsage bouquet of pink and white sweet peas. Dancing and music filled the evening.

Mask Ball Friday: A mask ball will be given by the Court of Honor No. 581 in Eagles hall Friday night. There will be dancing from 9-11 and a supper will be served. A lodge meeting will precede the dance.

Mrs. Gillespie Entertains: Mrs. Edw. Gillespie, 123 South Main street, entertained a five hundred party at her home Wednesday afternoon. A lunch was served after the game. Prizes went to Mrs. M. Rice, Mrs. Thomas Spahn and Mrs. Frank Roylan. The Washington birthday decorations of red and white were used.

To Have Program: The Federated Missions society will hold a program on March 1 at the Congregational church with a program to be given by the women in the afternoon, and an address by W. A. Gantfield, president of the church, in the evening. It is the regular day of prayer for missions appointed in the churches and as such will be observed at this meeting.

Dinner at Baptist Church: Lace caps and white ducous were worn by the waiters at the Martha Washington dinner served by members of the Baptist church Wednesday night. William Conrad was chairman of the affair, with Mrs. Edward Stabler in charge of the dining room. Mrs. Wallace Steer acted as hostess. The purpose of the making of the chicken pies, Mrs. C. Mother-Daughter Banquet: A Mother-Daughter banquet will be held at the Congregational church Feb. 28. The dinner will be cooked and served by the men and boys of the church.

Supper Thursday Night: Group 4 of the Y. W. M. S. of the Methodist church will meet Thursday night for supper.

Entertains Afternoon Club: Mr. and Mrs. P. A. Corcoran, Afton, entertained the G. T. G. club at their home Wednesday night. A three-course dinner was served at seven o'clock to 15 guests. The George Washington decorations were used on the table and throughout the home. A large Jerusalem cherry tree, filled with cherries and a red hatchet in its branches, occupied the center of the table while place cards were red hatchets. American flags were draped on the walls. A social evening, with music and games, was spent.

Mrs. Hennings Hostess: Mrs. William Hennings, Lincoln street, was hostess Wednesday night to a bridge club. Sixteen women were her guests at cards. Mrs. Joseph Connors and Mrs. J. W. Tullie took the prizes. After the game a supper was served at four small tables, decorated

SILK, WOOL AND STRAW MAKE THESE JUVENILE HATS

Perhaps the accents could not make bricks without straw, but the modern milliners are not so limited when it comes to spring and summer hats. There are any number of smart new spring chapeaux fashioned of fabrics other than straw. Here are three pretty little hats for the juvenile fille. They are ideal for school wear and are made of silk, wool and straw. All three of these hats are becoming to both the long and short-haired girls, which makes them doubly appealing.

JAMES KNOCKS OFF WORK TO GET RID OF TROUBLESOME RICHES
Franklin, Ky.—James Arthur Poteet, whose \$1-a-day income recently was swelled to one of \$51 when five oil wells were brought in on his farm here, has "sold" it. It became known when he quit his farm hand job.

With the wealth pouring in from his 64-acre farm, which he purchased several years ago for a total of \$10, Poteet has set out to spend part of it. He has just finished building a home, erected by his own hands at the cost of \$250. The long-harored garage of Mr. Poteet for a sewing machine has been gratified and Poteet himself has spent \$5 for a year's subscription to an oil magazine for his enjoyment.

Poteet's new home is the first improvement that has been made on the "worthless" land which he took off a friend's hands so the latter would not have to continue paying taxes on it. With the five wells flowing, Poteet's income is increasing at such a rate that Simpson county residents say, he will soon be the richest man in this section of the state. News of his wealth has been spread broadcast, and he is being swamped with letters requesting donations for charity.

Young Artists of Chicago in Recital Here

Two artists appearing in concert at the Congregational church here Thursday night—Joel Lay, baritone, and Miss Ruth Bradley, pianist—sang at a radio concert in Chicago Tuesday night and were heard all over the country by means of the new wireless machines, which enable one to hear Chicago concerts every night.

Mrs. Mark Dostwick, who has charge of the concert here, had planned to go to Milton to hear the concert, as a complete set has been installed there, but was unable to do so.

The artists, when heard here recently at the Norman Carle home in a private appearance, were enthusiastically received, and it was because of the many requests for a re-appearance of them that Mrs. Dostwick contracted them for Thursday night.

Ticket sale has been good, it is stated, and it is hoped that a good house will greet them. Tickets will be obtainable at the door.

Both Mr. Lay and Miss Bradley are fast advancing into the first rank of musicians. Miss Bradley, while famous as a concert pianist, has also won laurels for herself as accompanist for such famous artists as Cyrena Van Gordon, Margery Maxwell and Emma Noe of the Chicago Grand Opera company, and Richard Czerny, Polish pianist, playing for them on their concert tours. Mr. Lay is a pupil of noted teachers of voice, and has spent years in studying abroad. He is to return to Europe in April.

Warmth from Real Fuel-Food

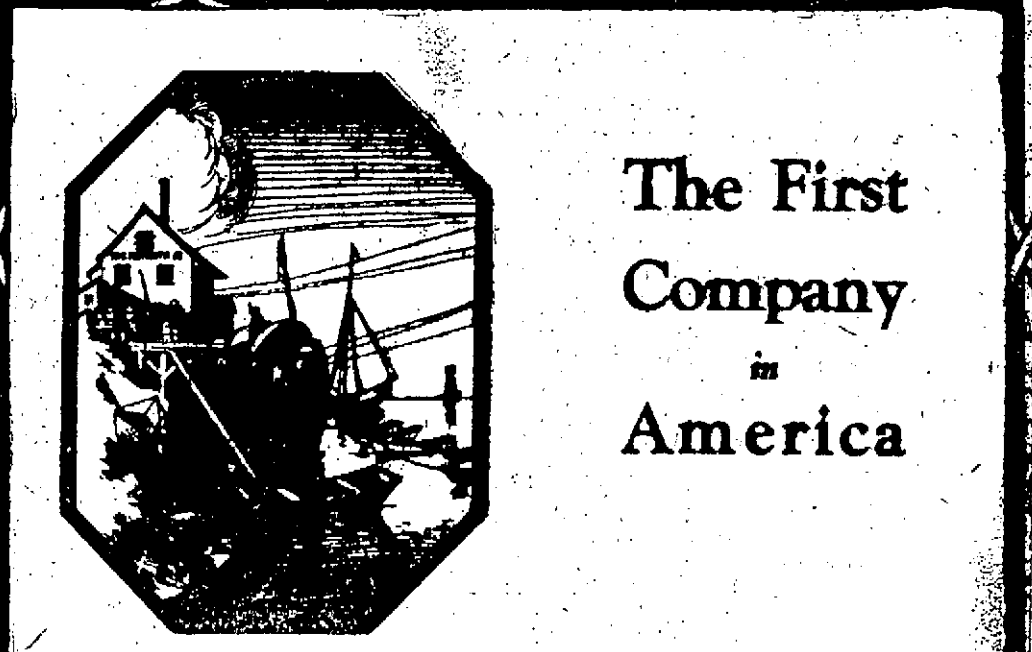

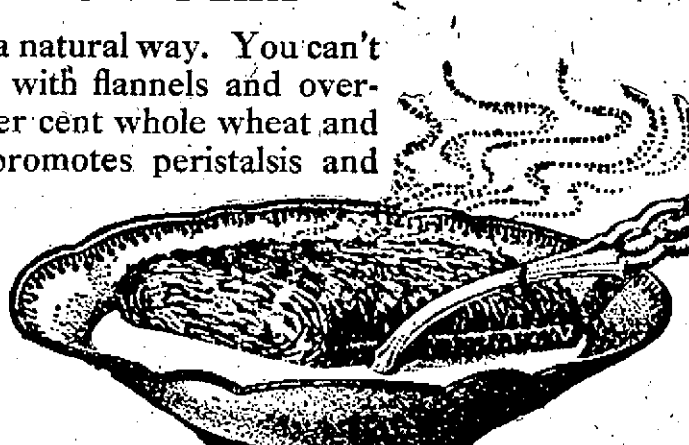

Warmth and strength for the human engine come from a fuel-food that is rich in heat-making elements. You can't "get up steam" from indigestible food that is lacking in blood-making, tissue-building elements. A breakfast or luncheon of

Shredded Wheat

With HOT Milk

supplies warmth and strength in a natural way. You can't warm a poorly nourished body with flannels and overcoats. Shredded Wheat is 100 per cent whole wheat and contains the bran-coat, which promotes peristalsis and thus keeps the bowels healthy and active. A breakfast of Shredded Wheat with hot milk starts the day right.

Heat the Biscuits in the oven to restore their crispness; pour hot milk over them, adding a little cream and a little salt. Better for children than mushy porridges—ready cooked and ready-to-serve.

AWAY back in 1685, the first industrial stock company in America was formed in the city of New York. Its papers read: "A proposal of settling a fishery in these parts. It is resolved that ye best way will be by a company, and £10 to be a share."

In 1800 there were no more than a hundred corporations in the United States—more than half of which were in Massachusetts. Many of these were close corporations—in fact, until after the Civil War, most industrial corporations sold shares to only a limited number.

It is a far cry from that small fishery and "£10 to be ye share" to the great businesses of the present.

But through the work of the investment houses millions of individuals have become owners of stocks and bonds, making possible that extensive participation of capital in industry, which has brought about the rapid rise of this nation to premier industrial power.

TAX INCREASE ON PROPERTY SLIGHT

General Assessment Boosted Less Than 1 Percent in Year, Says Rosa.

Madison.—The tax levy against all general property in Wisconsin, state, county and local, increased only .005, from a total of \$96,266,525 to \$97,266,525 during the last year, or less than one per cent, Judge Charles D. Rosa, tax commissioner, points out in a survey of the tax situation. The increase of .005, or .5 per cent, during the previous year from 1919 to 1920, had shown a serious attempt to prevent further increases in taxes. Judge Rosa said it is his prediction that the total levies of 1922 will show a decrease for the first time in 25 years.

Of the \$97,266,525, \$46,082 or .48 per cent was due to the increase in state tax, while there was an increase of \$17,237,007 in the levy for schools, with the total county levies decreased \$17,922, and the total local levies decreased \$48,213.

School Levies Increase.
An analysis of the school levies shows, Judge Rosa said, the following increases: In towns, from \$10,727,343 to \$11,557,701, or \$830,358, an increase of .77 per cent; in villages, from \$2,473,631 to \$2,631,930, or \$158,299, an increase of .64 per cent; in cities, from \$27,018,945 to \$28,171,410, or \$1,152,465, an increase of .43 per cent.

The tax levies for local purposes for 1922 of the state, decreased from \$11,557,701 to \$11,456,812, a reduction of \$100,889, while the same levy in villages increased from \$1,988,301 to \$2,631,930, a value of \$643,629.

Considered as Units. Judge Rosa said, counties increased their levies for local purposes, while 42 reduced them. Those showing the largest increases are: Milwaukee, \$238,857; Winnebago, \$19,778; La Crosse, \$14,711; Manitowish, \$14,583; Sheboygan, \$13,573; Jefferson, \$9,082; Rock, \$7,404. Those showing the largest decreases are: Douglas, \$25,583; Racine, \$20,355; Dane, \$19,248; Ashland, \$10,833.

While the total of all county tax levies decreased \$73,523,53, there were 27 counties which increased their levies over last year. Those showing the largest increases and the amounts are: Wood, \$19,523,41; Brown, \$15,527,47; Waushara, \$14,374,61; Fond du Lac, \$12,745,65; Wisconsin, \$10,246,67; Manitowish, \$9,631,11; Rock, \$9,133,02; Columbia, \$8,353,37; Vernon, \$7,573,55; Milwaukee, \$6,137,72; Oneida, \$4,787,06. Those showing the largest decreases are: Racine, \$20,355,16; Dane, \$19,248,00; Dunn, \$18,429,80; Shawano, \$15,166,50; Iowa, \$10,867,34.

Top Spending Money.
These figures show that some have learned that the only way to bring taxes down is for all governmental units, from the school district, to state spending money, Judge Rosa said. "Others have not yet learned the lesson, but will. In my judgment the total tax levies of 1922 will show a decrease over those of 1921. This has not happened before for 25 years."

"The average state rate to be used this year for the taxation of railroads and other utilities will be .0218, an increase of one-tenth mill over .0216, the rate last year."

Rebel Leader Gaining Upper Hand in Persia

Constantinople.—Simko, the insurgent Persian leader, and his army are masters of Tabriz and threaten the overthrow of the Persian government, according to recent advices. He has succeeded in increasing the number of his followers to 5,000 and he is operating successfully against the Persian regular forces in the district of Urmia.

The country is reported to be infested with his bands, who are robbing and killing. Travel in Persia is said to be unsafe. The Persian government, which is being reorganized by Swedish instructors, has been unable to check the insurgents.

The Persian army failed to take any measures against Simko, and the war minister, Ali Riza Khan, an ex-Cossack officer, has undertaken to suppress him.

With the dissolution of the South Persian frontiers and the withdrawal of the small British garrison, this country of great natural resources is reported to have fallen into a state of chaos and confusion.

Older Boys of County to Meet in Edgerton

Plans for holding the county older boys' conference at Edgerton, Saturday and Sunday, March 4-5 are being completed by J. K. Arnold, county Y. M. C. A. secretary. Several prominent speakers have been secured. Among them are: W. L. Chandler, New York, of the high school department of the International Y. M. C. A.; Fred B. Freeman, New York, director of the International Y. M. C. A.; O. C. Artman, Madison, secretary of county work for Southern Wisconsin; and Ray V. Sowers, Milwaukee, state student secretary.

The sessions will be held in the Methodist church with the exception of the banquet and Phantom Campers' reunion at the Congregational church, Saturday night. Howard Willett, student at the University of Wisconsin, aquatic instructor at the camp last year, will be present. Eddie Schacht, captain elect of the Beloit college baseball team and all state end in 1921, will be a speaker.

Plan Reorganization of Tri-County Ball League

(By Gazette Correspondent.)
Edgerton.—In the near future there will be a meeting of directors of the Tri-County base ball league at Cambridge, to form a new league to include Edgerton, Beloit, Madison and Jefferson. With the annexation of these three teams, it is predicted the season in this section will be one of the most successful in years.

The name for the league is undecided, but it may retain the name "Tri-County." Teams that were formerly represented in the Tri-County league will withdraw. George W. Blanchard, who has been manager of the local city team, will withdraw this year. No team has been named to fill the vacancy.

Diary Clears Mystery?
The son, throughout the 20 years in which he vanished from the earth, so far as his family was concerned, kept a diary which positively identified him as the missing Evansville youth, it is said. He told his wife, Clara, that his mother was an artist, and his father a lumberman and that his people formerly lived in Spokane, Wash., and his sister, Mrs. Wace, worth, lived on North street, Chicago. The sister of Earl Millis is Mrs. Myra Millis Wadsworth and resides at Cottage, Col. In the diary the man who for 20 years went as Earl Millis, says his other sister's name is Ethel and lives at St. Louis, Mo.

Chief of Police Gilman at Evansville, who said he was investigating the report, was expecting to hear from the Cincinnati police.

Earl Millis died while telling of the mystery which has shrouded his life for 20 years.

Few Building Projects for State Under Way

(By Associated Press.)
Madison.—Report of J. G. D. Mack, state engineer, shows that there is practically no state building consequence under way. The Superior normal school gymnasium, constructed at \$29,577, the Union Grove home for feeble minded, and the state hospital for children, and the state hospital for children, are the only large projects under way. A large number of minor repair jobs are going on at state institutions but the expenditures involved is nominal.

New large building operations will be commenced until the present biennium is gone through, with the possible exception of the Wisconsin General hospital, which the legislature has appropriated \$1,356,000.

Blues Picked to Win Friday from Edgerton

For the second time this week Janesville high school walks upon the board floor to meet a neighboring institution in basketball. This time it is with Edgerton at the Tobacco city Friday night in a return combat. Over a score of Janesville Blues seconds play Broadhead at Edgerton.

Last semester the locals defeated Edgerton, 15 to 9, here. A different court, however, now over 100 players following the introduction of three players. To even this, Edgerton has suffered numerous injuries recently with the result they lost to Univercity, 29 to 19, Janesville has lost twice to the Madison team but not by any such adverse score.

This is Janesville's opportunity to break its losing streak. Though defeated by Kenosha Tuesday, the locals displayed a prize-worthy reversal in putting forth a laudable fight to hold the enemy 5 to 2 in the second half.

EVANSVILLE SHOWS POOR IN VICTORY FROM OREGON, 46-16

(Special to the Gazette)
Evansville.—Although they defeated Oregon Wednesday night by the overwhelming score of 46 to 16, Evansville players showed poorly. Their work was rugged and the shooting of Cain, forward, poor. Practically all of Oregon's 16 points were due to the poor guarding of Baker. The local lineup consisted of Cain and Roberts, forwards; Barnum, center; Baker and James, guards.

CHINESE WOULD SCRAP NAVY TO PAY OFFICERS

(By Associated Press.)
Peking.—Officers of the Chinese navy have proposed to go the Washington armament conference one better by scrapping the entire Chinese navy and selling it to pay their salaries which are in arrears.

The Chinese navy consisted in 1920 of six protected cruisers, three destroyers, eight torpedo boats, three torpedo gunboats, four gunboats and considerable number of river gunboats. Nine of these, however, were under control of the Southern Chinese government, located at Canton.

The Chinese officers proposed also that all battleships and cruisers should be scrapped.

The Chinese press asserts that it is in the interest of their salaries rather than of the navy of the country that the Chinese naval officers proposed this drastic step.

GUERNSEY BREEDERS UNITED IN ONE CLUB

Eau Claire.—Six local Guernsey clubs have been united in one organization comprising about 50 breeders. A. C. Russell, of Augusta, was chosen president of the federation with Louis J. Russell, of Eau Claire, secretary.

The board of directors, made up of officers of the various local clubs, is outlining a program for the year, approved club work and decided to have one of the directors last night for sale in his community.

It was decided to send John Stallman of Elk Mound to the state meeting in Madison, Feb. 23, as representative of local Guernsey breeders. A resolution was passed favoring a county-wide clean-up on tubercular cattle by means of the state aera test.

Aera tests have been completed in Barron, Lincoln and Taylor counties and are now in progress in Washburn and Oneida counties. Chippewa county obtained the necessary 60 per cent of cattle men desiring the test in that county.

MASS MEETING TO HEAR KENOSHA WOMEN

(Continued from Page 1.)
ing the laughing now as the city manager form went over by an \$72 majority. The total vote was 3,770 to 2,838 in favor of a change in government and all those who study the election returns are ready to admit that the women carried the day.

"How did the women do it?" That is the question which the "old timers" in Kenosha asked, for the result of the election has torn down old political fences that have been standing in Kenosha for years.

"I'll tell you how we did it," explained Mrs. T. W. Ashley, president of the Kenosha Women's club, one of the organizations which led in the campaign. "We saw that there was something wrong and went in to clean it out. When our houses are rather dirty we roll up our sleeves and go to work and that's just what we did."

The Kenosha College club and the Kenosha Woman's club were the organizations which brought out the women's vote. Several weeks before the city-manager plan was presented to the College club here, and the young women endorsed it. They did not stop there, they appointed a committee with Miss Virginia Wulff, a graduate of Wisconsin university, as chairman, to aid in the election.

Maps Out Campaign.
Miss Wulff went to the members of the Independent Voters' league, which had favored the movement rather successfully, and offered the co-operation of the women to put the new plan of government in force. She mapped out the campaign which won the election.

All forces joined forces to show the politician that there were some real teeth in woman suffrage. There were hundreds of home-owners and working men who said little but had determined to support the movement and they did.

Among those who took the canvass were Mrs. T. W. Ashley, president of the Woman's club and wife of Dr. T. W. Ashley, Mrs. H. A. Robinson, Mrs. Clifford E. Randall, wife of former Congressman Clifford E. Randall, Mrs. Jay E. Randall, wife of the former president of the board of education, Mrs. Edward F. Higgins, Mrs. T. S.

FARM BUREAU BUSINESS.

In the selection of George Hull of Johnston for president of the Rock county Farm Bureau, that organization has again paid honor to a pioneer in the movement for the establishment of business methods among farmers. The strong national program of the Farm Bureau has been in part carried out. It has won favor because it was unquestionably based on economic truths and did not present the chimera of radicalism which is to get something for nothing. The Farm Bureau has been just as much opposed to radicalism as the radicals have seen in the Farm Bureau the most dangerous enemy in putting over a socialistic scheme. Whatever has been accomplished by the agricultural bloc has been along the lines laid down by the conference, first of the Farm Bureau leaders and afterward by the farm conference. The radical element representing a small minority, has broken away and will attempt another political division. The Farm Bureau refuses to enter politics as an organization or to hold political meetings or to join any political movement as a body. That is the power in the bureau and has given it a strength in securing constructive results not to be gained by entering the scramble for offices.

ROMANCE, CASH AND THE LIVERY STABLE

What is it in us that makes so much comment and such a sensation over a girl heiress of millions marrying a livery stable keeper? She is at least getting a husband with honest employment. The grandfather of the girl did a lot of menial things when he was a youth. We inveigh against the separated class of wealth and all unthinkingly aid in building up just such a class distinction. If the girl wishes to hold the horse for her husband, while he carries the animal so that his coat will shine all the more for the customer to whom the Swiss stable keeper has let him for a few francs, well and good. Others have done this without comment and it is an honorable calling. Somewhere about 1775 we signed a Declaration of Independence and by implication said there was no divine right in rulers. It is about time we signed another and declared against the divinity of cash. Of course all these things are interesting. They have been set down in fiction heretofore. And when they come to us as facts we get the realism. But in a few weeks the romance is forgotten and life gets back just as common and ordinary as the neighbor's washing on the line. When that family first moved in next door the clothes line was watched with interest. Now, having a list of all the household contents, it is no longer an object of curiosity. Also these marriages with foreign livery stable keepers and noblemen—all of about the same stripe with the bets in favor of the stable—may tend to steady the monetary situation abroad.

The U. S. senate is so used to Tom Watson now, that definite time allowance is made each day for his outbursts.

Every effort is being made by two sets of persons to handicap and delay the soldier bonus. One is the effort of the democrats in the almost solid opposition to a bonus of any kind in the hope of making it a political issue and the other, the opposition hampering the bonus legislation by interests which refuse to discuss either bonds or taxes for the purpose of raising revenue. Therefore it was reassuring to read the statement of Chairman Fordney of the Ways and Means committee, that a bonus bill would be framed by the republican majority and supported to a finality and passage.

Maybe the fact that John McGraw is to get \$65,000 for managing the giants this year has had something to do with Secretary Hoover's hesitation about accepting that Philadelphia job at a paltry \$50,000 per.

THE HOME OF SIMPLE SOULS

By FREDERICK J. HASKIN

New York—New York, contrary to its reputation for cold-blooded sagacity, is one of the simplest, meekest and most glib of towns. For all its bland airs of sophistication, it is as easily impressed by display as any savage chieftain, and it is constantly "falling" for all sorts of hoaxes and tricks that would scarcely deceive a child.

It is estimated that 40 per cent of all the questionable stock floated in this country during the past five years has been purchased by New Yorkers. It is well known that they contribute more every year to fake charities than the citizens of any other metropolis; that they support the most extensive army of frauds and beggars; and that they pay the highest prices for the most abundant service.

The New Yorker likes to boast about his city's superior cultural advantages, but he carefully ignores all disparaging features. Thus, he fails to tell you how he rides back and forth to work like a packed sardine in order to help the transit companies economize on trains; or how his children are getting only three hours' schooling daily because there is not sufficient space in the schools to accommodate them for full time. He makes no mention of the battered condition of the pavements or of the large black rivers that flow down the gutters in inclement weather and render the street crossings unbecomingly, even with the condescending permission of a policeman. Presumably, he pays taxes for and has a vote concerning the upkeep of these things, but he does not seem to mind if they are neglected.

"New York needs a Declaration of Independence," said an indignant property owner recently, "but it never will be declared. It's too good. I want to think that in the Middle West where I come from they call this a hard town! They ought to live in it for awhile. Why, it's the easiest town on earth. It will submit to every imposition that is foisted upon it, and smile encouragingly at its oppressors."

It is here in this wise and worldly borough of Manhattan that the bucket shop flourishes, annually robbing the public of millions. It is here that the fake promoter receives the most cordial welcome. During the war this was especially marked, and a great revival of stock follies occurred in which, according to one financial expert, "gopher holes in the West were capitalized as oil wells and a name on a map became a shipyard." The "bucket" of these gophers and shillies was war time enterprises are now beginning to appear in the wholesale collapse of bucket shops in Wall Street and in the great flood of complaints that is sweeping into the New York district attorney's office.

The New Yorker likes to pretend that while plenty of wolves may exist in New York, the sheep upon which they prey all dwell west of the Hudson and south of the Battery. But the police records show that the largest sheepfold is right here within the city's boundaries and contains persons who are themselves supposed to possess unusual business ability.

"Only the other day," declared a police official, "we had the case of a prosperous business man who bought the Grand Central Terminal from a clever promoter. Honest! The guy owns a steamship here, and he's lived in New York for over ten years, but that didn't help him. He paid \$1,340 for the Terminal."

While beggars have always reaped a rich harvest here, it took the war and the drive to accustom New Yorkers to solicitations for funds on every street corner. During the whole length of the war, New York never had any difficulty in going over the top with its contributions, whether the campaign happened to be a legitimate one or not. Undoubtedly, the majority of them were, but they brought in their wake the inevitable host of swindlers. For awhile, anybody with a shillies business, and a few dollars and a few dollars more, could raise enough money to keep himself in luxury for a couple of years. Even today, these unofficial appeals are often successful.

The other night, for example, a tall broad-shouldered figure in an amazing feminine garb appeared in an elevated waiting room with a small photograph, and placed it on the floor. In a few minutes the waiting passengers were listening to a jazz record and at the same time to an appeal for starving babies. The solicitor was dressed in Spanish regalia, including a somewhat faded and cheap Spanish comb which set off a quantity of neatly-dressed black hair. This exotic appearance pleased the public, and they gave generously to save the babies, so that the contribution box contained very nearly \$10 when a policeman came along and gazed at the photograph and the Spanish vision in some astonishment. Then he drew nearer and gave a playful yank to the neatly-dressed black hair. It came off.

"Hello, John," said the policeman calmly. "I thought that was you. Got a new game, I see. Last time I ran you you were playin' lame down on Forty-second street. How long have you been here—20 minutes? Gosh, \$9.45 in 20 minutes! How the public does love a fraud!"

Another beggar, recently arrested, has been in the habit of earning a very good living by throwing fits. His technique is something like this: Choosing a well-populated corner somewhere in the Bronx, he flops carefully down on the pavement, emitting a loud groan. This act immediately draws a crowd, because the groan is a popular opinion, New York traditions do not pass coldly and indifferently on their way when someone is in unusual happens. They stop still when they tracks and eagerly investigate it just as people do in smaller and presumably less sophisticated towns.

For a few seconds, the man lies perfectly quiet before a sympathetic audience; then he begins to twitch convulsively. The crowd, becoming alarmed, someone suggests sending for a doctor. But at that, the man slowly recovers, opens his eyes and sits up. A few of the bystanders press forward to ask if they can be of help. Slowly and painfully, they drag forth the man's sad story. He is the father of six children, who are starving. He cannot get work because he is subject to fits. He coughs grievously. The crowd is torn and divided. Some pity him. Some are disgusted. He passes it around. When returned it often contains over \$5.

Just at this point the other afternoon, however, a fat and indignant middle-aged lady, accompanied by a policeman, pressed through the crowd and demanded to be heard.

"That man is a fraud," she announced distinctly. "I saw him pull the same trick day before yesterday," and she named the time and the place. "Maybe I oughtn't to interfere, but I don't like to stand by and see a lot of kind-hearted people taken advantage of."

Thus, it is plain that the New Yorker is not the hard, flint-eyed, suspicious individual he is represented to be throughout the provinces. Instead, he is a simple, trusting soul who is easily deceived by appearances and whose sympathy is readily aroused by a hard-luck story. Every once in awhile, the legislature at Albany becomes much concerned about him and promises to pass a few laws for his protection. But they never seem to materialize. Perhaps the assembly finds it comfortable to have such a simple, good-natured constituency.

mosphere of homes. What? Is Milwaukee contemplating breaking up its homes?

One gathers from Mr. La Follette's speech that Warren G. Harding has been a dreadful failure as a president. There is an inclination to believe that nobody could satisfy the senator in that high office except Mr. LaFollette.

JUST FOLKS

By EDGAR A. GUEST

SUCCESS

This I would claim for my success—not fame nor the throng's changing cheers from day to day.

Not always ease and fortune's glad display though all of these are pleasant joys to hold; But to my friends to have my story told.

By smiling friends with whom I've shared the way.

Who, thinking of me, nod their heads and say: "His heart was warm when other hearts were cold."

"None turned to him for aid and found it not. His eyes were never blind to man's distress. Youth and old age he lived, nor once forgot The anguish and the ache of loneliness; His name was free from stain or shameful blot And in his friendship men found happiness."

ON THE SPUR OF THE MOMENT

By ROY K. MOULTON

OUR BUNGALOW.

In a bungalow tucked in the mountains. With nature's profusion around. And the rivulet all the day singing. And the birds joining in with its sound— That is where I would settle with you, love. Undisturbed by the world and its cares, Far removed from the cries of the city And the rude merchants vending their wares. Oh, the stars in the infinite heavens Would our guardians be, conrade sweet. And our lives would be set in the moonlight. That shone down on our pleasant retreat; And there Summer would creep in on tiptoe And wrap us in dazy dreams deep. Till the dawn on the crest of the mountains Told the dreams that had glorified sleep.

—FREDERICK SCHENCK SCHLESINGER.

AMBITION.

I care not for riches, neither silver nor gold. I care not for jewels of value untold. I care not for ruffled grouse or porthouse steak. Or fine tufted town cars of swell foreign make. I care not for these things. Oh, heaven forbid. Because they would lead me to ruin and I did. It would make no difference—I did.

TOUGH LUCK.

His horse went dead and his mule went lame; He lost his cows in a poker game; Then a cyclone came on a summer's day and blew his house and barn away. Then a fire came and swallowed the ground the house was on; the tax collector then came 'round and charged him for the hole in the ground.—Hicksville Harpoon.

Who's Who Today

SAMUEL UNDERMYER.

Politicians are greatly interested in a report from Albany that Samuel Undermyer is seeking to have William Randolph Hearst's boom for the U. S. senate, has about decided to put Samuel Undermyer in the race for the Democratic nomination. Hearst has covered the governorship of New York for many years and has looked upon the New York governorship as a stepping stone to the presidency. Undermyer is in the race for the nomination. Hearst's chances, it is believed, would not be great. Undermyer is one of New York's leading lawyers and has a high reputation. Twice in the past, however, he has refused the Democratic nomination for the New York senate. Undermyer was born in Lynchburg, Va., in 1858; graduated from the law department of Columbia university in 1878. He has since lived in New York for the following years. The important cases in which he has figured as counsel are many. He organized and is counsel for numerous brewing, manufacturing and mining industries and many corporations. He serves as director in many large corporations.

Undermyer was counsel for the committee on banking and currency of the house of representatives, Washington, D. C., in the Felo money trust investigation, which ended the career of many of the nation's leading financiers. He was special adviser to the government on the interpretation of income tax and war emergency tax laws, and assisted Provost Marshal General Crowder in the administration of the selective service law. Undermyer's law practice has netted him many millions of dollars. Some years ago he received a single fee of \$75,000, when he successfully carried through the merger of the Utah Copper Company with the Boston Consolidated and the Nevada Consolidated Companies, representing a market value of \$100,000,000.

Personal Health Service

By WILLIAM BRADY, M. D.
Noted Physician and Author

CABBAGE THE HEALTH FOOD

If any one food substance merited the name of "health food" that substance would be cabbage. Although cabbage is but little more nutritious, pound for pound, than lobster, clams, tomatoes, watermelon or beef soup (Bulletin 28, United States department of agriculture). "The Chemical Composition of a Cabbage Head 2 1/2 lbs." obtainable for 10 cents in coin by application to the superintendent of documents, government printing office, Washington, D. C., yet this economical and appetizing vegetable contains all other foods in many respects.

No other food, and no drug or medicine or essence as yet discovered, furnishes more vitamins than cabbage.

Cabbage contains all three vitamins and especially the fat soluble A factor and this is the vitamin, if any, that is deficient in some diets in America. I am referring to raw cabbage particularly. Boiled cabbage does, cooking probably decreases the vitamin content of any vegetable more or less. Steam cooking is preferable to boiling. Boiling is a costly and unwholesome method of cooking vegetables. Thus cabbage cooked by boiling loses in the process about 10 per cent of its protein or nitrogenous material, more than 20 per cent of its calcium, and about 50 per cent of its mineral salts. Cabbage is rich in the kind of iron the body can use. As a source of iron, phosphorus, calcium (lime) and magnesium, it is one of the best of all food substances and the superior of most so-called health foods.

Cabbage plunged into boiling water and cooked for precisely 20 minutes, no longer, will be a delicate light green color, tender and palatable, especially in covered vessels, makes it dark brown and hard to digest as well as less nutritious in every way. Boiled cabbage, served with lamb, mutton or beef, accompanied with cabbage sauce, fried cabbage with minced onion, cabbage cooked in milk and water, cabbage baked with hamburger or frankfurters, lady cabbage, sweet or sour cabbage, or filled cabbage, are recommended by authorities at Cornell of agriculture, and the mention of any of these dishes should make a normal person's mouth water. Raw cabbage with apple and onion, or with onion and celery, with green peppers, tomatoes, carrots or

shredded pineapple or with salmon, shrimp, tuna or any meat (canned), served with a hot dressing, makes a most palatable and wholesome meal. Plain cold stew may be included in any well balanced diet. And the American diet will be enriched to know that I see no harm in taking vinegar on one's cabbage. Although vinegar is not a food, and I would add just one dish to the list suggested by the Cornell agriculture college experts, the best dish of all from the viewpoint of nutritive balance, palatability and health—good old pork and cabbage.

QUESTIONS AND ANSWERS.

Cutting Teeth.
Our baby, eight months old, is cutting the teeth. What should we do for him? (Mrs. M. P. J.)
Answer—You might get the family together and give him three rousing cheers. He needs nothing more.

Hitting the Hay.
Please say to a child who is 10 years old boy should go to bed. Also what time a 10 year old girl should go to bed. Don't you think a 10 year old girl ought to drink coffee? (H. B.)
Answer—A 10 year old girl should be in bed no later than 8 o'clock. For her must have 10 1/2 hours of sleep every night. If he wants to be well and strong, a 10 year old girl must be abed by 10 o'clock every night. For she must have at least 8 1/2 hours of sleep every night to keep her well and give her a nice complexion. No, I don't think a 10 year old girl should drink any coffee.

Cross Eyes.
Is there anything to do for an 11 month old baby who is cross-eyed? (Mrs. M. P. J.)
Answer—There is nothing to do for an 11 month old baby who is cross-eyed. They do not stay crossed all the time. (Mrs. L. B. J.)
Answer—The complicated little cross-eyes often seen to squint or look cross-eyed at times in the first year, but this generally disappears shortly. If any squint remains after the child is a year old, by all means have it treated by a specialist. A squint is a family physician will recommend. Experience has proved that unless squint or cross-eyes are treated early, the child is six years old, the deviating eye is likely to become blind, and then permanent strabismic blindness is inevitable. Therefore parents must act while the child is young and never wait for the child to "outgrow" squint, which doesn't happen.

News for Farmers

Farm Bureau Official Information

ARRANGE PROGRAM FOR MILTON MEET

Fred Stubley, John S. Donald, L. H. McKay and Glasco on List.

For every acre of clover in Wisconsin there are three of timothy and 10 acres of mixed hay, according to the census of 1920. Mixed hays mean a large proportion of timothy. This is a condition of farming in Wisconsin and both for the soils and for the feeding of dairy stock, according to the authorities.

From all directions there is a demand for Wisconsin dairy stock, but the Wisconsin stock is no better than the care and the feed that it receives. Timothy hay and corn are

Money Back If "Gets-It" Fails

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Coughs, colds, and chest troubles are easily made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is clean and simple, but very prompt in action. Under its healing, soothing influence, chest soreness, cough, phlegm, wheezing, becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest clogs are removed by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer use clarified honey instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste. Pinex is a special and highly concentrated compound of genuine Norway pine extract, taken from the world over for its prompt healing effect upon the membranes.

Clean Milk Production Practical For Farmers

Every person is interested in milk production. On many farms, milk is bottled and sent out direct to the consumer with double caps, the outer cap fitting over the entire top of the bottle and tied at the neck. No chance for dirt to drop into the milk either during the bottling or when opened by the housewife.

In addition to every precaution in production, medical men examine the health of the employees at least once a week.

Practical for Farmers
"This is all very fine—but is it practical for the average farmer?" This question was asked of D. G. Grubbs.

"I think so and we hope to prove it in time. The farmer does not have to go to such extreme care but he should see the value of clean milk produced under sanitary conditions. From a few cents he can get more for his product. It is the quality product that pays."

"Our stand is that a farmer does not have to spend a fortune to produce clean milk. There are many ways to demonstrate by actual practice that the farmer can undertake the clean milk question on their farms and encourage better production," explained Mr. Grubbs.

Milk 15 cents quart
Here comes the shock for the dairy residents. This Guernsey milk, produced from tested cattle, under the utmost sanitary conditions, sells for 15 cents a quart in Port Atkinson. Pasteurized milk sells for 10 cents a quart in the Port.

The James farm milk tests five percent fat and all Port Atkinson women declare that the milk they buy is so thick they have to thin it with milk to have it whip properly.

"Farmers producing milk consider their product is being sold to children and babies, whose lives depend upon it," declares W. D. James. They must have a conscience in their work to produce cleaner milk under better conditions.

The bacteria count on certified milk must be under 10,000. Milk tests made in Madison often show 80,000 to 100,000 in carelessly produced milk. Milk produced under the best conditions shows less than 1,000 and often a few hundred.

It is worth any farmer's time to see the James farm, even though he may be convinced the modern improvements are not practical for him. He might change his mind after seeing.

Loosen Up That Heavy Cold

THE person who once gives Dr. Bell's Pine-Tar-Honey, the national cold relieving medicine, a fair opportunity of proving itself, becomes a convert. He learns how really beneficial its healing and balsamic ingredients are in helping relieve a cold, cough, croup, or any other ailment.

Today—right now—get an economical bottle at your druggist's. It will be a well-paying investment. Children like it. Safe and economical. Keep it on hand. 30c.

Dr. Bell's Pine-Tar-Honey for Coughs and Colds

Relieves Rheumatism
Muscle loosens up stiff joints and dulls out pain. A clean, white ointment, made with oil of mustard, it usually brings relief as soon as you start to rub it in.

It does all the good work of the old-fashioned plaster, without the blister. Doctors and nurses often recommend its use. Get Musterole today at your drug store, 35c and 65c in jars and tins; 10c per tin.

Heals Running Sores and Conquers Piles

Also Stops All Itching of Eczema Almost Immediately.
"I felt it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year, three weeks ago and now it is healed. A. C. Gilchrist, 793 Reed Street, Erie, Pa."

"I do not get a letter like that, says Peterson of Buffalo, who have John D. Pfeiffer, give me a thousand dollars. It does me a lot of good to be able to be of use to my fellow men. For years I have been selling through druggists a large box of PETERSON'S OINTMENT. It is a marvelous ointment. Eczema goes in a few days. Old sores heal up like magic. It is the best ointment I have ever used. Old sores are specially conquered."

It stops itching in five minutes and for sores and burns it is simply wonderful. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

HIGH HERD MARKS IN WALWORTH TEST

Holstein Owned by Glenn Nichols Produces 2,279 Pounds of Milk.

The Delavan-Geneva Cow Testing association reports for the month of January that there were 261 cows tested during the month and of these 21 cows produced 40 pounds of butterfat or over during the 31 days of the month.

Glenn Nichols had high cow, Josephine Walker, 4 years old, producing 2,279 pounds of milk during the month of December, 21. She produced 2,279 pounds of milk testing 3.1 per cent or 70.7 pounds of butterfat.

Mike Dugan's herd of 10 grade and purebred Holstein cows was high herd with an average production of 122.2 pounds of milk and 4.1 pounds of butterfat.

Those that had high cow in the 60 pound butterfat class were: Mike Dugan's Holstein cow, Duchess, produced 170.5 pounds of milk testing 4 per cent or 68.2 pounds of butterfat.

C. W. Schmalzing's 6-year-old grade Holstein, Young Spotted, tested 127.7 pounds of milk testing 3.5 per cent or 45.2 pounds of butterfat. A 5-year-old grade Holstein, Irene, produced 152.2 pounds of milk testing 4 per cent or 60.9 pounds of butterfat.

Will H. Smith's 6-year-old grade Guernsey produced 142.9 pounds of milk, testing 4.5 per cent or 65.3 pounds of butterfat.

L. E. Ellsworth's 7-year-old grade Guernsey produced 140.8 pounds of milk, testing 4.3 per cent pounds of butterfat.

C. F. Pank's 4-year-old purebred Holstein, Eulalia, produced 146.2 pounds of milk, testing 4.1 per cent fat and 60 pounds of butterfat.

In the 50 pound butterfat class: Thomas and Gatz had 2. Mike Dugan's 2. C. W. Schmalzing's 3; and the following each had one: Wm. Schmalzing, L. P. Sutter, B. Conny, C. Joyson, J. J. Brooks, E. J. Pank, L. Smith had 9; Mike Dugan and L. E. Ellsworth each had 6; C. Conny 5; W. Schmalzing and D. E. LaB 4; C. W. Schmalzing had 2; each had 4; Wm. Schmalzing had 2; each had 2; Leon Pitteroff, P. L. Maxon, L. P. Sutter, Glenn Nichols, Roy Saunders, Carlton Bowers, J. Dunwiddie, Clayton Pitteroff and C. Joyson.

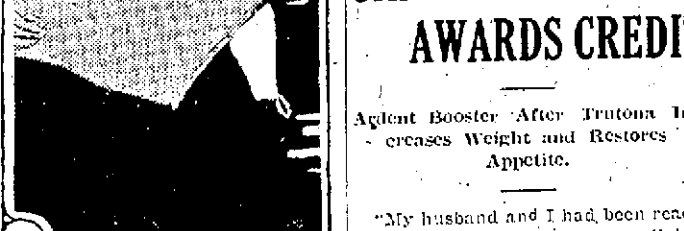

High Cows in classes:
Glenn Nichols' purebred Holstein, Josephine Walker, 4 years old, produced 2,279 pounds of milk testing 3.1 per cent or 70.7 pounds of butterfat.

Will H. Smith's grade Guernsey, Mullie, 3 years old, gave 141.8 pounds of milk testing 4.7 per cent or 66.9 pounds of butterfat.

C. W. Schmalzing's purebred Holstein 2-year-old Tivoli Pontiac gave 145.5 pounds of milk testing 4.7 per cent fat or 68.8 pounds of butterfat.

Chicago—The warmest weather recorded since the establishment of the weather bureau for Washington's birthday has been experienced when the mercury reached 67 degrees.

BOY OWNS VOICE OF FIVE OCTAVES

Robert Murray, twelve-year-old pupil of Frederick Hayward of New York city, is said to possess a voice range greater than any known singer. In technical terms the range of his voice is from C, 123 V.P., below middle C, over five octaves to 6237 V. P. S., or over the top of the present piano forte. The lad sings in three languages and renders difficult arias with ease.

CELLAR BECOMING OBSOLETE AS SITE OF WHISKEY STILL

No longer does the moonshine still hide its squalid coil and boiler in the cellar. The cellar still is old stuff. The first place the dry agents and sheriff's posse look is the cellar and if the still is found the next place the owner looks is the jail.

The Rock county authorities have been hearing varied reports of the new hiding places for the stills. One farmer is alleged to have built a plank platform near the top of his silo for his moonshine corporation.

Near Port Atkinson another home distiller is said to have dug out a cave in a corn field and roofed it over much in the same manner as a war time dug-out. He camouflaged it with corn shocks and corn and ran the steam vent into a distant shock.

For weeks one dry agent sought to locate a still in a hollow log in a woods. The locations of the stills are a matter of personal information, consequently hard to learn. However the police and county authorities agree the cellar is nearly obsolete.

MOVIELAND

Enid Bennett has been induced to return to the screen. Douglas Fairbanks is responsible for her return to pictures. She is to have the leading feminine part in "The Spirit of Chivalry," which is the temporary title of Fairbanks' new picture. This will be Enid Bennett's first part since she retired to play the role of mother in real life. Fred Niblo, the well-known director-husband of Enid Bennett, will not direct his wife and Fairbanks in this picture. Allen Owen will wield the megaphone.

The picture is a costume story dealing with the period of the Crusades and the early history of England. Fairbanks will play a legendary character against a background of historical figures. Dawn, Lotta Woods and Kenneth Davenport of the Fairbanks scenario department are now doing intensive research work for the feature.

Enid Bennett.

Wallace Deery signed for the role of Richard the Lionhearted, and Sam de Grasse to play St. John, completing the first foursome which is the nucleus of a truly all-star cast.

CUPID'S GOSSIP
And now they say Margery Daw and Johnny Harmon are seriously "keepin' company." The engagement has not been officially announced, only rumored.

"The Affairs That Annie Told" is a new comedy coming soon which J. Searle Dawley is directing.

Anita Stewart and her good-looking husband, Rudolph Cameron, are now playing in the same picture, "Rose of the Sea." "Rudy" has the honor of being his wife's leading man. For some years now

Anita Stewart and her husband, Rudolph Cameron.

he has been her business manager and a few years back he played with her at Vitagraph. Prior to his entry into pictures, Cameron was a Broadway star in "Rich Man, Poor Man."

It is rather a strange coincidence that Fred Niblo is to direct Anita's husband's return to the screen and at the same time Allen Owen is directing the return to the screen of Enid Bennett, Fred Niblo's wife.

MYERS TO PLAY ROBINSON CRUSOE

In the Robinson Crusoe serial, which is already in production at Universal, City Hall Myers will play Robinson Crusoe. The only man in the world who would be convincing in the role of Man Friday.

RESULTING FROM THE WASHINGTON CONFERENCE

day is Nobel Johnson; he has been engaged. Others in the cast are Joseph Swickard, Gertrude Dinstad and Gertrude Clark. Robert Hill is waiting the megaphone.

SIR GALAHAD IS READY.
Well, look who's here. None other than Ralph Obenchain, "the man in a million." Sir Galahad, etc., all decked out in gracie paint, eyebrows penciled, in everything, ready for the camera to begin shooting.

The young Evanston lawyer who dashed across the country to help defend Madelyne Obenchain, who divorced him, on the charge of complicity in the murder of J. Belmont Kennedy, in Los Angeles, is in the movies. He's the newest star. "It's a secret," he said, when asked for the details. "Wait a few days and I'll tell you. We're just starting." When Ralph, proud as a boy in his first long pants, called at the fall to show Madelyne, she beamed. "How fine he looks!" It was too good a bet for the movies to pass up. Still, come to think, Clint Hamon hasn't set the river on fire with her famed reminiscences, has she?

WHAT THEY'RE DOING
June Elvidge has just finished a big part in "Beyond the Rocks," in which Rudolph Valentino plays the leading male role under Director Sam Wood at Lasky.

George Backstrom has just finished in support of Clara Kimball Young in "The Worldly Madonna," produced by Harry Garson. Jack Mithall, handsome leading man, has just completed the principal male role in support of Constance Bennett in "The Love Contract," a Reelart picture produced at Lasky by Director E. J. Le Saint.

CHICAGO MURDER DEFENDANTS GET OFF EASY IN '21

Chicago—Less than one out of four of all the defendants tried for murder during 1921 in Cook County, who were convicted in the city of Chicago, were convicted, according to the report of the Committee on Statistics of the Chicago Crime Commission, made public here today.

Out of 31 cases and 34 defendants charged with manslaughter, only one defendant received a sentence to a penal institution, according to the report which notes: "This indicates that a man has 34 chances to one of being convicted, or 97 per cent escaping punishment."

In cases involving 225 defendants charged with murder, there were only six death sentences. One of these was in the case of Thomas O'Connor, now a fugitive from justice, the report says.

175 Railroads File Petitions for Wage Cuts

Chicago—More than 175 railroads, including every big transportation line in the country except the Pennsylvania, had filed petitions for wage reductions for all classes of employees when the wage docket was closed at the United States railroad labor board Wednesday.

Unexpected counter proposals for wage increases were filed by seven labor organizations, in addition to the increase of 13 cents an hour over present wages asked by the six railway shop craft unions as announced two months ago.

Hearings on the wage disputes for all classes of employees except the five train service brotherhoods—engineers, firemen, conductors, trainmen and switchmen—will begin March 6, the board's submissions generally seeking restoration of wages paid prior to May 1, 1920, when the board's first wage awards, amounting to \$600,000,000, became effective.

YANKS RUNNING RAIL LINES FOR GERMANY

Coblenz—Branch lines of German government railways within the occupied area are being occupied by several American engineer battalions as part of a course of instruction of the army railway school established some time ago by officers of the American forces in Germany.

The train crews are made up entirely of American soldiers, and the train dispatching on the short lines is done by members of the organization who are taking courses in railroad telegraphy.

The first platoon of Company A, Sixteenth engineer battalion, has been operating three trains daily between Koblenz and Jünkerath in the Ahr valley, near Coblenz, several months, and has never had a serious accident.

KU KLUX HONORS "REAL AMERICAN"

Denver—Five white robed and hooded members of the Ku Klux Klan appeared suddenly at the funeral of Charles E. Locke, at Fairmount cemetery Tuesday, placed a beautiful floral offering on the grave and disappeared. A letter bearing the seal of the Denver, Colo., Klan Number 1, Knights of the Ku Klux Klan, was mailed to Denver newspapers, stating that, although Dr. Locke was not a member of the organization, they desired to honor him as a real American.

NEW SOUTH WALES CHECKS LEPROSY

Sydney, N. S. W.—Encouraging results are attending the efforts of the health authorities in Queensland to check leprosy with the treatment of the chaulmoogra oil specific evolved by Dr. A. L. Dean, president of the University of Hawaii, according to a health board announcement today. Discharge of five European patients from the leprosy hospital at the island of Hawaii is contemplated, as the treatments have removed all traces of the disease from them. The five patients include one woman, and frequent tests during the past year failed to reveal symptoms of leprosy, it was said.

Today's Short Story

By GEORGE T. BYE
Illustrations by ARLENE COYLE

THE FLOUR GIRL

You won't believe me, but I am going to say it anyway. This is a true story. I can't fool around getting affidavits and notaries' seals every time I write facts; but that would be necessary to induce people to believe me. Since I began writing a short story a day I cannot open my mouth without people settling back to hear another yarn, and my wife is as bad as all the rest. If I look up to tell her I think it will be a cold day tomorrow, she immediately responds with the maddening question, "Yes, and then what?" Good heavens, I'm not remembering all the time!

Anyway, whether she or you believe it or not, this is a true story. It was revealed to me on a recent delightful excursion in Virginia. The girl's name is something like Katherine Rudge; she is a demonstrator of a fine grade of soft-wheat flour; and this fine soft flour she demonstrates is not nearly so soft as the Alabama "flour" that fall from her tongue like fragments of fleece.

It is Katherine's work. I spend a few weeks in each town showing the high quality of biscuits and pastries that her flour makes. She does her demonstrating in the office of gas companies. Then she visits wholesale grocers and gets orders. Those Dixie blue eyes of hers and that smile of Southern gladness have

lighted a way for her into the hearts and order books of every Virginian she has met.

The train on which I met Katherine was bound for Lynchburg when we were held up by a wreck. Faced with a three-hour delay, I asked Katherine if she would not like to have dinner with me.

"That would be a nice way to pass the time," she answered, "but my friends will be waiting in Lynchburg. I'm spending the week-end there, and they're sure to hold supper, so it wouldn't be fair for me to eat now."

"All right. Supposing we just talk then. How would you like a story to be written about you, called 'The Flour Girl,' and ending with some lucky man getting you?"

"No, sir," protested Katherine. "That wouldn't do, at all. I know a man who would go up in the air if he would read that."

"He wouldn't care. I'd mislead your name a bit, and not tell where you are from."

"Well, but he knows me as a flour demonstrator and that would catch his eye. That man wants to put the happy ending to my life, and whenever he gets ready I want to let him."

"Fine. Just give me his name."

and I'll have you falling into his arms at the finish."

Katherine narrowed her eyes. "Man, what are you all saying? Do you want my friend to think I am chasing him on? We don't do things like that in the South. In a year or

version, so go ahead. But it does seem foolish."

Kakuske, Local Milton Star, Signs With Rockford Nine

Copyright 1920 by Geo. McManus

WAS HIGH SCHOOL STAR; PLAYED ON LOCAL BALL CLUBS

(By Gazette Correspondent.)
Milton—Herbert P. Kakuske, Janesville local well known as a Milton college athlete, has signed a contract to play with Rockford in the Three-B league this coming season. He has won his "star" in all major sports at the local college and this year is captain of the basketball team. He will not report to Rockford until after receiving his degree from Milton at the commencement exercises in June.

Several years ago, Kakuske won a reputation as a "sand-blot" pitcher in Janesville and starred on the Janesville high school team. Last year he played with Palmyra in centerfield and also with the Janesville Club Diamonds.

In 1914, he pitched for the Janesville Red Sox, winning 13 straight when his arm went bad and has been poor ever since. He was a member of the "Janes" of several years ago. Kakuske is about 25 years of age and has hit each game. He is a sure base runner.

By FRANK SINGLAH.
Spring is here! Clark Griffith, manager of the Senators says the pennant of the junior baseball wheel this year. Now for bear stories from training camps.

Ball players are still dreaming silk shirts and automobiles says Col. Huston, part owner of the Yankees. Something similar was said a few days ago by Frank L. Smith, city assessor who played with the Janesville Nationals in 1921. "We played ball in those days for the fun of it," he declared, "condemning the present high salaries. Players are holding out for \$250,000."

There is little use to establish an honor system in college athletics to combat professionalism unless it is possible at the same time to impose an honor code. This quoted E. M. Atkins of Dartmouth. The rules which exist, he says, need clarification and explanation to a degree that shall make manifest not only their propriety but their desirability for the good of sport.

Athletes for everybody is the suggestion of O. E. Pence, state secretary of the Illinois Y. M. C. A. The Gazette has long urged greater boosting of more athletes to bring every individual into the open air. Dr. Pliske, head of the Life Extension Institute, states the death rate among persons over 40 is increasing because people are not getting sufficient life in the open and are making excessive use of stimulants and sedatives. He advocates working hard while playing and playing hard while working.

Milwaukee has been placed upon the program this year of the great western circuit of the American Trotting association. The dates are Aug. 23 and Sept. 1 with purses totaling \$22,000. Other cities are Davenport, Aurora, Hamline, Omaha and Springfield. It is about time Janesville were considered.

Golf is running off and the Ku Klux Klan a close race for excitement in Texas, says Bob McDonald, former Chicago open champ. "Not even in my native Scotland have I seen such a wide spread pursuit for golf as in Texas."

A stadium seating 12,000 and costing \$100,000 is being talked for Marquette university, Milwaukee.

Tommy Milton, 1921 champion and world speed demon, winner last year of the Indianapolis 500-mile race, has filed his entry for the May 30 race.

Beloit college will send its crack record breaking relay team to the University of Wisconsin carnival-Balsold Gates, Captain Picken and Clayton Addie. The Gold will also enter the special events.

The National Athletic club, Milwaukee, Frank Muthern, manager, was suspended by the athletic commission for violating contract rule.

Ingval Anderson won standing jump in international and contest at Lake Placid with 102 feet.

Tud Kent won the American dog derby at Ashton, Idaho, in 2 hours, 35 minutes.

Robert McAllister, New York policeman, set new world's indoor records for the 110, 120, 130, and 150 yard dashes.

New York players won every preliminary game of national racquet tournament at Boston.

Italy has challenged for the Davis lawn tennis cup.

E. T. Appleby, national champion, won the international 18-23 badminton amateur title.

Oscar Halberg, averaged 225 4-3 in world pin meet at Chicago.

Stanley Kenton, 16 year old son of "Doc" Schwieger of the Janesville Rifle club, got the heart's desire of every rifle shot Wednesday night when he made a "parade" 100 out of 100.

"Doc" Loebforn, Hull and Nott also made a possible kneeling.

NOTICE, WHITEWATER ARGYLE SPEAKS

The Gazette.
As to Evansville's article in your of the 18th inst. relative to Evansville-Argyle basketball game at Argyle, Wis., this was Argyle's 17th victory this season and in justice to this team, wish to make following statement:
According to official score record, nine fouls were called on Evansville and four on Argyle. Six of the Evansville fouls were in two men. There was no time Evansville was in the lead at the end of any quarter. While time was being called a spectator walked out on the floor. Evansville obtained a free throw and miss. Argyle made two free throws and Evansville nine in all.
The game evidently was too fast for Evansville.

4 Men in 7 Bald at 40

—yet 95% needlessly!

Science discovers falling hair due to simple infection (Sebum). Now quickly overcomes it.

Pay Nothing

Unless we grow hair. The Van Ess treatment is absolutely guaranteed. You are the sole judge. The warrant is signed by your own druggist. You assume no risk making this test.

Written Guarantee to Grow Hair This New Way

This is to offer you, under absolute money-back guarantee, the new Van Ess treatment, which, under clinical tests, grew hair on 91 heads in 100. It embodies new principles. Principles heretofore unknown to science. Now high authorities say baldness soon will be a rarity. For hair roots seldom die. And this method revives them. Test it yourself at our risk.

Hair Roots Rarely Die

Records show 4 men in 7 are bald, or partially bald, at 40. Modern science proves this to be unnecessary. Proves only 5 men in 100 need ever be bald!

Baldness is not a disease. Note this fact and mark it. It is merely a symptom of infection—an infectious scalp oil, known as Sebum.

Remove this infected Sebum and hair will grow. Under the bald scalp, the hair roots live. This is true in 95% of all cases of falling hair or baldness. This new method reaches the roots. It makes hair grow. But the public has often been deceived. So we guarantee it. You take no chance of loss.

New Hair or No Money

We make our guarantee without reservation—without strings. It is absolute. We guarantee to stop falling hair in two weeks. We guarantee to grow new hair. If we fail, your money back without question. Note that your own druggist signs the guarantee. Thus you assume no risk.

It is safe for us thus to guarantee the treatment. For experiments of years prove it effective on 91 heads in 100. Foremost authorities approve it. World noted dermatologists now employ it—many charge as much as \$500 for the treatment.

We offer it, in correct form for home use, at the price of an ordinary "tonic."

The Infected Sebum

95% of all hair troubles are traced to infected Sebum. It is an oil that forms at the roots of the hair. Its natural function is to supply the hair with oil. But it clogs on the scalp. It forms a breeding place for bacteria. It clings to hair and destroys it. It lodges in hair follicles and plugs them. Then germs by the millions start to feed upon the hair. Semi-baldness soon is marked. Then comes total baldness.

You can see this Sebum on your scalp, in the form of an oily excretion. Or, when dried, as dandruff. But it does not kill the roots. Hence without removal it, new hair grows. This is scientific fact. Medical authorities will tell you so. You must remove the infected Sebum.

Now We Remove It

For years, science experimented to combat infected Sebum. Finally a 95% effective specific was found. Now we have embodied it in a home treatment. It is called Van Ess Liquid Scalp Massage. (Note illustrations above.) It penetrates to the follicles of the hair. It combats the Sebum and removes it. Results are marked. They are quick. In two weeks it stops falling hair. It grows new hair with continued use.

We urge you to try this new way. We know the statements we make are amazing—almost incredible. But remember, we back them with an absolute guarantee.

Note the results yourself. Mark the healthy condition of your scalp—the freedom from dandruff. Look in your mirror—see for yourself.

Go today to any druggist's. Obtain the Van Ess treatment. With it you will get our guarantee, signed by the druggist from whom you buy it. Hence, it is folly not to try it.

Note this New Way

—It Massages the Treatment Directly into the Follicles of the Hair

This patent applicator makes hair treatment, at home, possible for the first time. Blood alone revives. Treatment must reach the infected area under the surface. We accomplish it, as the illustration above shows, with hollow nipples of scientifically perfect rubber massage-cap which comes with every bottle of Van Ess Hair Grower. The lotion is fed directly into the follicles of the hair. At the same time the flow of blood is stimulated by massage to the hair root.

Delavan Will Entertain Boys of Walworth Co.

Delavan—The tenth annual Walworth County Older Boys' conference will meet in Delavan, Saturday and Sunday, February 25-26. Delegates will be entertained at the Delavan. The conference opens at ten a. m. Saturday at the Methodist church. Some outstanding features of the program are:

From 10 a. m. to 4 p. m. Saturday, there will be talks and discussion led by older boys and leaders of the conference.

At 4 p. m. the recreation period will be led by E. P. Gifford of the association at Madison.

At 6:45 the conference banquet will be held in the Methodist church. The following topics will be discussed: "Why Am I Here?" Russell C. Whitewater; "Welcome to Delavan," J. J. Phoenix; "Character Values in Play," A. P. Gifford; "The Older Boy and His Role," Dr. A. W. Hildreth; "The Spirit of Phantom Camp," Ray V. Sowers, Milwaukee.

Sunday afternoon there will be a mass meeting for men and boys at the Congregational church beginning at 2:15. The male quartet of the Congregational church will sing. W. L. Chandler of New York will speak on the subject, "The Eternal Conflict."

The union young peoples' meeting and the union meeting of the churches will be held at the Baptist church Sunday evening. Ray V. Sowers of Milwaukee will be the leader of the young peoples' meeting and W. D. Chandler will be the speaker at the union meeting.

Dr. A. W. Hildreth will have charge of the singing during the conference.

Delavan

Delavan—Miss June Gray has returned to Milwaukee for medical treatment. Mrs. Elizabeth Hylberg was hostess to the M. E. F. club Tuesday evening. Chet and G. S. Welch have moved into their new bungalow on South Third street. Mrs. Charles Evers returned to Beloit Wednesday morning after a several days' visit at the home of her brother, John, and sister, Mrs. S. S. Hildreth. Mrs. S. S. Hildreth was married at Rockford, Thursday. They will reside in Clinton. The Misses Lena Virstegard and Evelyn Swan entertained the teachers of the public school Tuesday night at the T. C. Cawney home, South Third street, at a Washington's birthday party. Cards furnished the evening's diversion. Miss Mollie Summer won the honors at "500" and Miss Amanda Jacobson won first honors at bridge, each getting a silk flag. In the advertising contest Miss Florence Conway and Oscar Kline received first prizes. The house decorations, lady cards, etc., were suggestive of the day. A luncheon was served. There were twenty-four in attendance.

Orfordville

Orfordville—Postmaster Harry Holden moved the office to its new quarters in the Charles Taylor building Wednesday. The building has been overhauled and remodeled and makes an excellent office. Raymond Dwyer left Thursday morning for Manila, Ia., where he has been engaged by the municipal water and light plant as head engineer. He will have charge of their large Delavan engine. Dwyer has rented the Mrs. Gander Anderson house and will move within the next day or two. Husted and Gaarder commenced moving their furniture into the Odd Fellows building on Wednesday. They will occupy the entire lower floor, which has been fitted up for their use. Rev. I. M. Gifford will be spending several days in Milwaukee, where he is attending the conference of his church. Edgar Osgard, who is in the U. S. navy, with headquarters at Hampton Roads, Va., is visiting at the home of his parents, Mr. and Mrs. C. O. Osgard, of the town of Plymouth.

Sharon

Sharon—Charles O'Neil fell from a tree and sustained severe injuries Monday. The limb which he was sawing broke and hit the ladder knocking him to the ground. A physician was called and he was made as comfortable as possible. It is believed his hip is broken. And Story had a finger injured Monday. He was holding a board and a nail that was being driven in went thru his finger and in removing it the finger was badly lacerated. Frank Story is seriously ill, having typhoid pneumonia. The Woman's club will meet Friday afternoon with Miss Mae Gile. The Married Folks Club met Monday night and played cards and enjoyed a pot luck supper. The first prizes were won by Mrs. and Mrs. Clara Peterson while Mrs. Mervin Gile and G. Y. Smith captured the booby prizes. L. J. Daniels and force of men began work on the J. L. Chalker home this week, remodeling the entire house on the interior. C. H. Underhill spent Monday in Harvard. J. L. Harding, Janesville, was a business visitor in town Monday. Spencer Fish and J. A. Mortimer, Whitewater, spent Monday afternoon in town.

Milton Jct.

Milton Junction—The fortnightly club met at the home of Mrs. B. West Monday night. The subject for the evening was "Modern Humor" in charge of Mrs. F. J. Bardick and Miss Lois Morris. Anna Carroll and Kathryn Boott gave humorous readings and Hattie Buell sang and danced. A farce "Fresh Timothy Hay" was presented by Mrs. F. L. Bardick, Mrs. Rex Bardick and Lois Morris. Refreshments were served by Mrs. West. Mrs. Mervin Gile was taken to Mercy Hospital Monday night, where she underwent an operation. Miss Evelyn Stone, Pontiana, is a guest of her aunt, Mrs. E. Stone. Mrs. J. Seutlon, At. Arthur Stone, Charles and Francis Mullen, Madison, were here the first of the week called by the serious illness of their father, John Mullen. Mrs. J. S. Gilbert left Tuesday for Kansas City, Mo. Completed designs and models for the office, which will be erected at a cost of \$2,000,000, and on display at the Architectural league exhibition in New York.

WOUNDED SOLDIERS ASK HARDING'S AID AT WHITE HOUSE

President Harding with delegation of wounded soldiers photographed after their conference at the White House.

Wounded soldiers from Walter Reed hospital, handicapped by loss of limbs and other injuries that bespeak the sacrifice they

made in the World war, recently called on President Harding at the White House to urge him to keep in mind their plight and ob-

tain legislation in some form in the near future which will aid them. The president assured them of his help.

of Mrs. and Mrs. J. M. Gallagher, Wednesday. Mrs. Robert Stewart who has been seriously ill is improving slowly.

Elkhorn

Elkhorn—The 15-22 club will hold its last meeting before Lent Thursday night at the home of Mrs. Charles Jahn.

Mrs. Harrington Entertains—Mrs. Grant D. Harrington entertained a dozen women friends on Wednesday afternoon and Mr. and Mrs. A. J. Johnson have invited a large company for Thursday night at the T. MONTREAL FIGHTS WATERWAY PLANS

Schism Seen Between East and West in Canada Over Project.

Toronto—Recommendations of the International Joint Commission for the carrying out of the St. Lawrence deep waterway and the improvement of the project by President Harding have produced a schism in Canada similar to that in the United States. The whole Dominion west of Montreal and the Ottawa River is gratified. Montreal and the East are unsympathetic or hostile.

The city of Toronto for some time has been working on a scheme of harbor improvement involving an ultimate expenditure of \$25,000,000 in anticipation of the day when ocean-going vessels from the ends of the world will be trying up as quick as wharves. Other Canadian lake ports have eyes turned in the same direction. This does not mean that Toronto expects to become a rival of Montreal, Boston or New York as an ocean port. Most people here appreciate the limitations of canal traffic and no one dreams of ever seeing the lordly passenger liner of high seas breaking the gray water of Lake Ontario. Hopes are centered on the more humble freight tramp.

Montreal, jealous of her position as head of all St. Lawrence navigation, will be actively hostile. But it is doubtful whether Montreal will be able, even with her important representation in the present Dominion Government, to prevent the project from being carried out. The project is now put forward. Friendly sentiment in Ontario and all the West is too strong. The West ardently yearns for some relief from the killing frosts of winter. Ontario's chief interest is in the by-product of the scheme, the hydro-electric development.

Electricity Wanted in Toronto—Electricity has acquired importance at Niagara and elsewhere of what hydro-electric development will do for industry and for the comfort of the people. She already has a million horsepower in sight, but sees immense possibilities, dwarfing all past achievements in the St. Lawrence project.

Opponents of the project, whether in Montreal or in the eastern States, do not seem to appreciate that objections on the ground of cost even if that cost runs to \$200,000,000 or \$300,000,000 are likely to lose their effectiveness when it is realized that the power development may pay for the whole cost of the ship canals.

Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, already developing 500,000 horsepower and shortly to have another 500,000 horsepower at Chippewa, sizes up the St. Lawrence project thus:

"The cost of power at Chippewa when fully developed will be less than \$12 per horsepower. The total undeveloped water power of the St. Lawrence River is round numbers about 4,000,000 horsepower, 24-hour power, of which something over 1,800,000 horsepower may be developed in the International portion, and of which the Province of Ontario owns one-half."

Great Power at Low Cost—It would be possible to supply a load of say 400,000 horsepower over a transmission line three

hundred miles long, and deliver twenty-four-hour power at a cost that is less than three hundred miles distant, so that it would not cost at the switchboard more than from \$25 to \$30 per horsepower year. This means that such power could successfully invade a market which was developing steam-electric power, at a cost in the neighborhood of \$60 per horsepower year, with a load factor of about 50 per cent.

Within a radius in Canada of two hundred miles from Ontario's waterpower on the St. Lawrence River, and within a corresponding radius in the United States of three hundred miles, it has authoritatively been estimated that, by 1931, there will be a market for about 6,000,000 horsepower, and it is stated that, in addition to this quantity, representing as it does general per capita consumption, there will be special demands for electric power to regulate steam power for the electrification of railways; and, in large blocks, for special new industries.

The recommendation of the International Commission that the United States shall bear a part of the cost of the new Welland Canal because it is an integral part of the scheme, is described by the Toronto Globe as being so liberal that "Canada will be obliged in self-respect to refuse the favor." The Welland Canal (costing \$60,000,000), being wholly within Canadian territory, we must build it unaided, so that there shall be no cloud on our title.

The general division of cost proposed by the commission is based on the degree of benefit as measured by freight tonnage, while recognized as likely to work out to the advantage of Canada, is meeting with some criticism on the ground of its unfairness. And the proposal to set up a joint board with a certain amount of jurisdiction over parts of the system lying wholly west of the country is also evoking some mild criticism. But these points do not affect the enthusiasm of land-lubbing Canada for the commission's report.

BANKERS OPPOSE TAX EXEMPTION ON BONDS

St. Paul—Withdrawal of tax exemption on government, municipal and other classes of bonds is urged in resolutions adopted by group number one, Wisconsin Bankers' association, in convention here Wednesday.

Tax exemption has worked to the detriment of farm mortgages and other classes of "necessary" investments, it was set forth.

J. A. Playter, Eau Claire, was elected president; E. L. Cass, Superior, vice president; and J. P. McNally, New Richmond, secretary-treasurer.

Chicago—Secretary of Commerce Hoover said in an address "The jeopardy of war has been most assuredly driven beyond our conception" by the accomplishments of the arms conference.

Thorough Seed Inspection Is Plan of State

Madison—Seed inspection, required under Wisconsin law, will be assuming added importance with the approach of the planting season this spring, the department of agriculture says today in a statement.

The state law requires that all seed packages be labeled so that the purchaser may know just what he is buying. This label must show the name and address of the firm or person offering the seed for sale, the percentage of purity, percentage of germination, and in the case of corn, sorghum and alfalfa, must show where the seed was grown.

If there are noxious weed seeds in the drop seed, the label must tell the variety—the percentage present, which if it totals one to 3,000 of the crop seed, it cannot be sold in the state.

Seed samples for testing by the state inspector—the percentage present, which if it totals one to 3,000 of the crop seed, it cannot be sold in the state.

The danger of spreading noxious weed growth is pointed out by the agricultural department, in urging that farmers and dealers comply with the inspection law.

A Good Piano Can Once More Be Obtained at Small Cost

New low prices are in effect on the well-known Washburn Pianos and Player Pianos! Now, again, you can get a thoroughly dependable instrument at a very moderate figure.

This is the buying opportunity for which thousands have waited! They have hesitated to risk the purchase of a piano that might be "tin-panny" in ten years. But war-time costs put such good instruments as the Washburn beyond their reach.

A Lifetime Piano

Everywhere the Washburn Piano is known for uncommon durability. Thousands of these instruments have stood the rigors of ocean travel and are giving true satisfaction under the severe climatic conditions of tropical lands—of South America, of Asia, of Africa!

Scientific design and great care in construction assure this lasting goodness. They result, too, in musical quality rare among such moderate-priced pianos. The tone of the Washburn will delight you! It is round, resonant, full, and sympathetic. And its sweetness remains unimpaired by time and use!

That it is made by Lyon & Healy guarantees the goodness of the Washburn Piano. Into it has gone the knowledge born of 75 years of hand high grade instruments.

See and hear these good instruments at your first opportunity! Why not come in tomorrow?

The Washburn Player

The Washburn Player Piano takes the same position of leadership! For in the good Washburn is incorporated the perfected Lyon & Healy-made Player. It is an instrument of true musical worth!

It holds keen enjoyment for the first-time performer. And the trained musician, as well, finds in it unlimited opportunity for expression—to give his own interpretation to the music.

You Save \$100

At the new price level, the purchase of a Washburn Piano or Player Piano saves you fully \$100 from the usual price of competitive instruments. And you get an instrument that stands out as notably superior! In beauty of tone, skill of workmanship, and excellence of material, it has few rivals, except among those pianos whose claim to artistic pre-eminence is recognized.

See and hear these good instruments at your first opportunity! Why not come in tomorrow?

FIX CROSS ROADS, PLEA OF CARRIERS

Rural Mail Men Pass Resolutions, Elect Palmer as President.

Patrolling of cross roads as well as state and county trunk lines was favored at the annual meeting of the Rock County Rural Carriers' association at the city hall here Wednesday afternoon, when after a lengthy discussion a resolution to this effect was drawn up to be presented at the state convention at Wisconsin Rapids.

Serving his last year as a rural carrier, H. A. Palmer, Janesville, was unanimously elected president to succeed C. J. Anderson. Mr. Palmer has served for 18 years as a Janesville carrier, was one of the organizers of the Rock County association, has served terms as president and secretary, and been a delegate several times to state and national conventions.

U. A. Hungerford, Evansville, succeeded Daniel Kelly, Beloit, as vice president. Messrs. Pontius, Beloit, was re-elected secretary-treasurer. Delegates to the 1922 state convention are Messrs. Palmer, Anderson, Hungerford, and Pontius; J. C. Siles, Beloit, and Alexander Bruce, Edgerton.

Talk of Bad Roads
Interesting facts in regard to the men, whom Congressman Cooper calls "members of the faculty of the great university in the country," were brought out at the meeting. "The trials and tribulations, the hardships which the carriers of mail in the rural mail districts daily undergo were discussed."

The men brought out that postmasters, supposed to inspect the routes twice yearly, never pick a day when the weather is bad and consequently never see the roads when they are in poor condition. Some of the roads are like remnants of a volcano, one said. Most farmers on bad roads have asked to have the roads fixed and have put in a lot of time absolutely free.

Cement Road on Horses
The men declared road dragging should be done on wet days, not on dry days, for the best results.

Mr. Palmer said that cement roads may be all right but they are hard on the horses' feet.

"County and town roads should be patrolled the year round," he said, "there is no excuse in Illinois where they patrol the county roads, and traveled 100 miles of road last year at less expense than building six miles of concrete road. Let us put the county, state and national carriers back of having cross roads fixed as well as trunk lines." (Applause.)

A welfare council of three to five members to meet for the mutual benefit of the carriers was proposed. The service will be appointed by the president of the county organization.

A feeling of partnership and good fellowship which prevailed at the national convention in Washington which made a rural carrier feel proud of his job—quite a different feeling from seven years ago—was told by H. A. Palmer and daughter, Carrie, who attended.

BURY SHACKLETON ON ICEBOUND ISLE

New York—Grylls, chosen by Lady Shackleton as the last resting place for the body of her late husband, Sir Ernest Shackleton, British explorer who died aboard his tiny craft "Quest" last Jan. 5, is an ice-bound, isolated habitation of 20 persons who cling to the frozen shores of South Georgia Island, called the "Gateway to the Antarctic."

Sir Ernest's body was brought from the Antarctic to Montevideo following his death and will be accompanied by Captain Frank Evers, a member of Shackleton's expedition, when it starts again on its journey into the polar regions.

Lady Shackleton's decision to halt removal of the body to England is in accordance with a lifelong wish of the explorer that he be laid to rest amid the scenes where his life work had been carried on. Only at the outset of his last voyage he told friends he wanted to be buried in the ice, like an old sea dog.

3 MORE CASES OF DIPHTHERIA HERE

Three additional cases of diphtheria have been reported to the city health officer, Dr. Fred B. Welch, this week. Among them is E. S. Lamoreaux, one of the manual training teachers at the high school. He will be quarantined with his family for three weeks.

Test Strength of Southern Yellow Pine

New York—Announcement is made at the testing laboratories of the department of civil engineering at Columbia university that it would be two months before experiments were completed to determine the strength of southern yellow pine and Douglas fir timbers available in commercial lumber yards in New York.

The tests are being made under the auspices of the superintendent of building in the city's five boroughs to establish equitable grading rules and working stresses for submission to the board of aldermen to be considered in connection with recommended revisions of the sections of the building code governing timber construction.

The New York Lumber Trade Association, Southern Pine Association, West Coast Lumber men's association, and National Manufacturers' association assisted in selections of specimens.

OVER 100 BIRD HOUSES, ASSURED NOW IN CONTEST

Classes for the exhibits will be: Boys 12 and under; Boys from 12 to 15; Girls 12 and under; Girls from 12 to 15. Successful entries in both classes. Prizes in all four classes for boys and girls outside of Janesville. A special mention for best entries from older persons.

Two prizes for school exhibits—going to the schools. The prizes consist of plans and other things useful in schools.

Now is the time to get in the contest. The Gazette is already assured of more than 100 exhibits. It ought to be \$200. The bird houses your best friends. Give them a home.

SWEDISH PRINCE ORDERED TO ITALY AS HEALTH MEASURE

(By Associated Press.)

Stockholm—Prince William has been ordered by his physicians to leave for southern Italy to recover his health which was badly shaken by fever contracted in the course of his hunting and scientific expedition into Central Africa. This, however, did not stop the royal scientist and big game hunter from filling engagements to lecture before the students and faculty of Lund university, Sweden, and the University of Copenhagen. He had promised to deliver the lectures and this he did, then left for Italy.

WOULD MAKE MAY 10 WORLD MEMORIAL DAY

(By Associated Press.)

St. Paul—International observance of May 10 each year as Memorial day is being urged by J. W. Hamilton of St. Paul, who has received commendation for his proposal from many prominent persons in Europe and other countries.

It is proposed to have a holiday for school children, on that day, with suitable exercises the day previous, "so as to bring to their plastic minds what the day and what it can be made to mean for the future."

Expressions of approval for the plan have been received by Mr. Hamilton from Senator Wavrinley, Stockholm, member of the Inter-Parliamentary Union; Stephane Lauzanne, editor of Le Matin, Paris; Maron Sakurai, Tokio, and many others.

RAIN FOLLOWED BY COLD WAVE OVER WIDE TERRITORY

(Continued from Page 1.)

prevailed again Thursday throughout the northwest. The second day of the most severe storm of the year in this section, however, found the snow fall subsiding in the eastern part of the Dakotas.

Sweeping in from the Rocky mountains region, the storm which began Tuesday night, with lightning and thunder, snow, hail, sleet and rain, was rapidly moving eastward Thursday and conditions were reported as clearing up along the state line between Minnesota and North and South Dakota.

Winds ranging from 30 to 50 miles an hour swept the light snow in the Dakotas into huge drifts and blew over telephone and telegraph lines.

In Grip of Blizzard

Northern and southern Minnesota and western Wisconsin continued in the grip of the blizzard and snow was still falling early Thursday, piled high by five winds. Duluth reported nearly 30 inches of snow, with drifts in many places more than 20 feet high. Except for occasional service on one line downtown, no street cars and

running in Duluth. Members of the tank corps, national guard, in that city were out with their tanks, early Thursday, bucking the drifts in an effort to clear the way for a partial resumption of traffic.

Most trains out of Duluth were cancelled, but service was started for the Twin Cities.

Trains Long Delayed

Railroads running out of the Twin Cities were making efforts to keep their crack trains running, but many were from 2 to 24 hours late and several were reported stalled in the drifts.

Virtually all branch line trains were abandoned and no attempt was made to move freight. Several men were slightly injured when a freight train on the C. M. and St. Paul railway west bound, collided with a switch engine in the yards at Aberdeen, S. D. The blinding snow storm was blamed for the accident.

Poles Snapped Off

Several hundred poles belonging to the American Telephone and Telegraph company between Tomah and Warren, Wis., a distance of about 100 miles, were snapped off during the sleet storm. As a result of this, communication between the Twin Cities and La Crosse and Chicago, was knocked out. Lincoln said it would be several weeks before the damage could be repaired.

In some parts of southern Minnesota, the ground was covered with from one to three inches of ice. Children skated to and from school. Seven high school students of Welles, Minn., skated eight miles to Junction on the public highway, which was covered with ice as smooth as glass. They returned the same way.

Storm and Cold Wave SWINGING TO EASTWARD

Washington—The storms and cold wave which have made the northwest ice and snow bound will reach the Great Lakes region, the Ohio Valley, Tennessee and the east gulf states Thursday night or early Friday and will overspread the Atlantic coastal region by Friday night, according to the weather bureau.

The western storm had its center early Thursday over the upper lake region and, with its progress tending east-northeastward, cold wave warnings were issued for lower Michigan, the Ohio Valley, Tennessee and the east gulf states.

Generally the cold wave portion of the disturbance will be preceded, as in the northwest, by snow or rain.

ICE JAM IN MILWAUKEE RIVER THREATENS SUBURBAN MILWAUKEE

The weather bureau forecasts a cold wave for late Thursday and Friday, with the temperature going down to six above.

A flood, the result of rain and sleet during the last two days, threatens the extinction of Sunny Point, a settlement of gardening establishments and homes in the town of Milwaukee, because of ice which is damming the Milwaukee river and causing the water to rise with great speed, according to Carl Felm, president of the Sunny Point Advancement association.

Deputy sheriffs now are making preparations to dynamite the ice jam to prevent further menace to property. Sunny Point is along the east bank of the Milwaukee river, near the junction of the Port Washington road and the Bender road.

Bliver Hike at Wauwatosa
In the city of Wauwatosa, a western suburb, crushed rock had to be piled along the banks of the Milwaukee river at the city park to prevent the river from overflowing its banks.

The cold wave is expected to prevail over the western part of the state, while in the northern and western parts temperature near zero are looked for. Snow and a high wind from the northwest, were expected to accompany the drop in Milwaukee. Telegraphic and telephone communication with the northern and western parts of the state, which broke down Wednesday as a result

of the sleet storm, was today still badly crippled. Train service, which was affected only slightly Wednesday, was delayed Thursday.

COLD WAVE EXPECTED TO FOLLOW SNOWSTORM

Madison—A heavy snow storm was sweeping Wisconsin, Thursday, hampering train service and seriously crippling communication, according to reports at the weather bureau here. Following on the rain and sleet, which Wednesday covered most of the state with a layer of ice, came the snow Thursday, accompanied by strong winds. The sky was clearing in Madison toward noon, after two days of rain and snow, but reports from the north and west of here tell of a continuance of the storm which already has practically cut off communication by telegraph and telephone and slowed up train service.

At La Crosse, which is practically isolated from the rest of the state, a heavy snow is falling, the weather bureau reports. Sleet which fell Wednesday night at Green Bay turned to snow Thursday, with precipitation of two inches.

The Wisconsin weather report predicts that clear weather will come toward evening, accompanied by a cold wave in the southern part of the state.

CANNIBALISM IN FAMINE REGION IS TOLD BY OFFICIAL

Stockholm—Sweden's premier, Hjalmar Branting, has received a telegram from Consul General Ekstrand, head of the Swedish relief commission at Samarra, Russia, telling of cannibalism in the Volga famine district, previously reported by Dr. Fridtjof Nansen. He says: "The terrible sufferings of the population here forces me to address a flaming appeal to Sweden's government and people to help still more in fighting one of the cruelest and worst disasters in the history of humanity. There are places in the famine district where people endure such misery that it leads to cannibalism. Corpses have already been eaten. They are now beginning to kill people to eat them. In spite of Sweden's present difficulties I beseech the following in the name of human charity to grant the support requested."

TARIFF INVOLVED IN NEW TANGLE OF WORLD FINANCES

(Continued from Page 1.)

mentally \$10,000,000 to pay six months' interest on her indebtedness to America has produced a profound impression here and is another evidence of the tetterment of Anglo-American relations.

There are, of course, three ways by which Europe can pay her debts to America—in gold, in goods and in services, such as freight, carrying, etc. The first is the most direct, but it can be transferred only if American buyers of Europe should the American people indulge in the purchase of foreign enterprises, this would tend to help the situation, but Americans have been slow in the past to invest heavily in European businesses.

Their field of influence.

The export of goods would be payment for debts in America, and would help Europe but the tariff laws will tend to reduce the amount that Europe can sell here. If it ever comes to a question of permitting foreign manufacture to flood American markets, and hurt American industries, the tendency would be to force payment of foreign debts and keep American industries going.

But there is a mean between two extremes—a line below which American cannot go and yet give ample protection to American industries, or those which it is still possible for Europe to find a market for her commodities in the United States. It's the difference between a prohibitive tariff and a competitive tariff. It's a hard line to find, but economists never have easy tasks, anyway.

The office of the statements by

former Minister Lanchester of France and Ambassador of Italy will be to carry out the necessity of taking into consideration the foreign debt phase of the tariff question. The United States chamber of commerce and many foreign trade organizations have been saying the same thing as the French and Italian spokesmen and have been urging caution in handling the tariff. An indication has been responsible for the successive delays encountered by the high protectionist advocates in the last year. If it had not been for the foreign trade question, the republic can partly would have been passed on an old-fashioned tariff.

The kind of game of excuses and pretexts, political and economic, for non-payment of the American debt, has begun. The American offensive has hardly been started, though Senator McCall McCormick of Illinois recently gave Europe a surprise by pointing through the senate, without inquiring how European governments were spending their money, Europe took offense at that—though it is still saying harsh things about Mr. McCormick's query, but when the American funding commission starts work, it will ask more pertinent questions and tell Europe some more facts about the origin of the billions which were loaned during the war.

Why So Much for America? In the first place, American wants to know why so much is being spent on food and garments and why some of that food could not be used to pay interest and principal on the allied war debt. France says she needs the army because Germany will not pay. America and Great Britain will probably be compelled in the end to draw from Germany such definite assets

ances with respect to the amount she can pay as to make unnecessary the maintenance of large military forces on the continent. In the second place, the fact that the American government didn't take the ten billions out of a surplus fund or a rich treasury but borrowed it from twenty seven million persons—men, women and children—has yet to be explained to the European financiers. The American government cannot cancel with out the consent of virtually the entire electorate which besides losing on its original investment, would have to be taxed further to pay interest or principal on the liberty loans themselves. Such a course isn't for a moment, considered here.

Recovery Is Rapid In answer to the French and Italian pessimism, the tendency in England is to tell Europe not to be so disconsolate about its own future and to point out what remarkable progress has already been made in reconstruction. The recovery of Europe is in many respects greater than was anticipated. In such circumstances instead of imagining that 25 years hence Europe will be bankrupt, the American debt commission will proceed on the theory that Europe is strong enough and resourceful enough to pay her debts if she is given time, and that, no doubt, will be granted.

WAR ON FAKE SALES St. Louis—Advertising abuses and their correction was the subject of several addresses here, before the opening session of the mid-winter meeting of the National Better Business Commission. The session will continue through Friday. Campaigns in the newspapers against "wreckers" or sales organizations that "foist illegitimate sales" on the public have proved successful in the city of Washington, P. N. Whitney, manager of the Washington bureau of the commission, declared.

22 NATIONS, ALL RACES REPRESENTED IN PUBLIC SCHOOLS Enrollment of the public schools is made up of many races, with representatives of 22 lands and all five races—white, red, yellow, brown, and black. According to figures compiled by Miss Rosemary Knight there are 64 children of foreign birth in the public schools.

Thirty-six of these came from Canada, Italy, and Syria, 10 having been born in Italy, 9 in Canada, 8 in England, and 9 in Syria.

Other countries and places which help to make the schools cosmopolitan are: Austria, 1; Belgium, 2; China, 1; Cuba, 1; Denmark, 1; Canal Zone, 1; Germany, 2; high sons, 2; Hungary, 1; Ireland, 2; Philippines, 1; Poland, 2; Prince Edward Island, 1; Russia, 2; Sweden, 2; Switzerland, 1.

22 NATIONS, ALL RACES REPRESENTED IN PUBLIC SCHOOLS

Enrollment of the public schools is made up of many races, with representatives of 22 lands and all five races—white, red, yellow, brown, and black. According to figures compiled by Miss Rosemary Knight there are 64 children of foreign birth in the public schools.

Ancient Marne Taxis Replaced by Modern Cars

Paris.—The veterans of the Marne, those ramshackle, broken-down taxis which every American visitor to Paris has had to dodge on the Paris boulevards, have been permanently retired and replaced by 3,200 modern comfortable taxicabs.

The forbidding appearance of the old "cruisers" seemed to have an ill effect on the drivers and hope is expressed by many Parisians that the new machines will also mark the passing of the disreputable chauffeurs who are considered as ill-mannered as their machines are old.

The taxicabs were placed in service in 1905. In 1914 they were mobilized by General Gallieni, then military Governor of Paris, who crowded his army into them and rushed them to the battle of the Marne, where they aided in the success of the famous flanking movement that saved Paris and defeated the Germans.

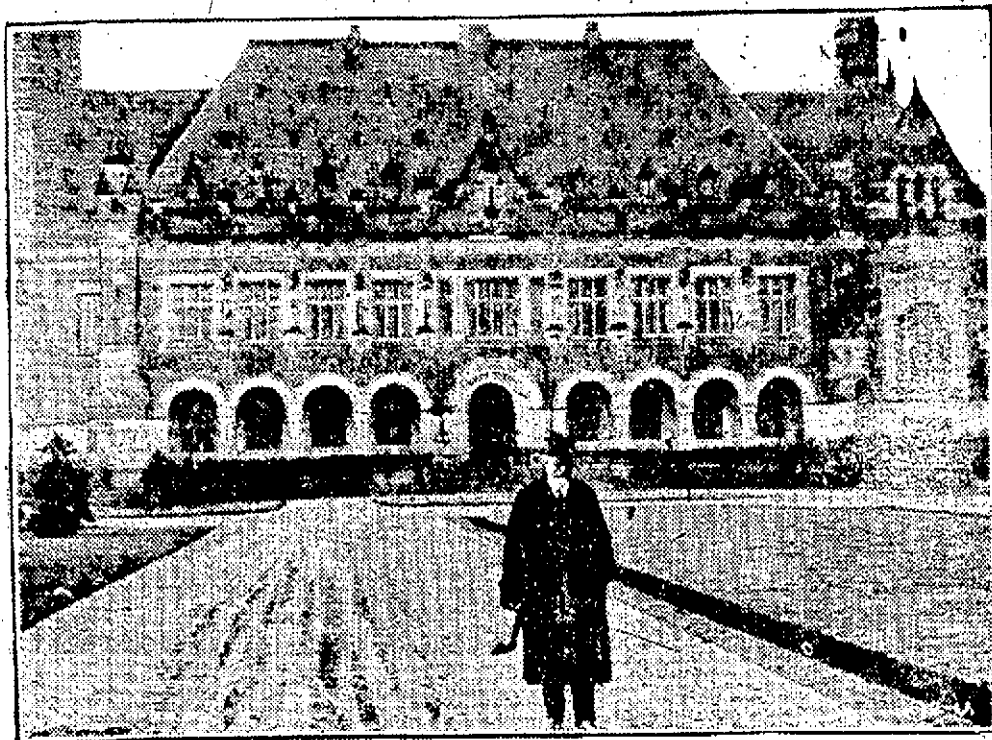

FIRES DEVASTATE N. S. W. FIELD Sydney, N. S. W.—Bush fires have been devastating some of the richest of the western districts of New South Wales for more than a week and the affected zone now embraces approximately 80,000 acres, bounded by walls of flame over 100 miles long. Men have been fighting the fire day and night inside this area.

TARIFF INVOLVED IN NEW TANGLE OF WORLD FINANCES

FORMATION OF "VICIOUS CIRCLE" THREATENED BY EUROPE
DEBTORS HOWLING
Can't Pay if U. S. Wall Is too High, Plaint of France.

By DAVID LAWRENCE.
Copyright 1921, by Janesville Gazette.

Washington. — World finances are threatening to develop a "vicious circle" involving not merely the payment of American Liberty bonds but the height of the tariff wall being constructed by the American Congress.

France says, through former Minister Loucheur, that she will not be able to pay American Liberty bonds because of the high customs duties imposed against her.

Italy, through Ambassador Tico, who is a famous economist as well as a diplomat, says the tariff wall will prevent Italy from paying what she owes the United States.

Great Britain says she will not be able to pay American Liberty bonds because of the high customs duties imposed against her.

United States cannot pay Great Britain until money is forthcoming from the German indemnity.

America has just appointed a funding commission and has yet to speak her policy. But certain fundamentals can be taken for granted. One is that the new commission, composed of Secretary Hughes, Secretary Hoover, Secretary Mellon, Senator Smoot of Utah and Representative Burton of Ohio, will not cancel any of the European debt. Such power is vested in the commission, most that can be done for Europe is to spread the payment of interest and principal over a period of years and here, too, congress has imposed a limit. Congress may have to be extended, years may have to be extended, but that's a subject for bargaining at the table.

In fact, the appointment of the American funding commission, which has been the signal for a new round of the tariff war between France and Italy, the cry that neither can pay unless the tariff wall is removed is regarded here as having some basis of plausibility from the viewpoint of sound economics but the tariff-protectionists will look around for many an excuse to postpone or repudiate payment until finally compelled to meet the question directly in the official negotiations.

Resolutions Are Improved

Selective Yank Bonus Is Urged

Washington. — In an open letter Thursday, to Chairman Fordney, of the house ways and means committee, Representative Ammons, of New York, suggested a "selective bonus" for the sick, the wounded and the needy.

"There are many ex-soldiers," he said, "who do not need a bonus and do not want it and, in the present condition of our finances, we should not force it on them."

"Some method should be provided to divert this portion of the bonus to hospitalization and rehabilitation for the sick and wounded, thereby decreasing appropriations for that purpose."

Mass Meeting of Women Will Tell How Kenosha Women Won an Election

Four women of Kenosha will be in Janesville Friday afternoon and to a mass meeting of the women of the city will tell how Kenosha adopted the City Manager form of government. These women, who have come from the battle in Kenosha, will tell Janesville women and men, too, who wish to attend, just what happened. The meeting is public. It will be held at the Baptist church at 5 p. m. and women of Janesville are urged to attend and hear an interesting report of a real campaign.

Leaders in the Campaign

Mrs. H. H. Lane, who was chairman of the women's committee conducting the campaign for the women; Mrs. C. E. Bandman, wife of the former congressman from this district, will address the meeting and Mrs. Foster, who made many speeches and addresses, will talk on the state law, and answer any questions anyone has to ask. Mrs. Gephart, another prominent worker, will also be a member of the party.

The afternoon meeting will be preceded by a luncheon given by women of Janesville to the visitors. This will be served at 1 o'clock at the Baptist church. Every woman in Janesville is invited to attend the luncheon. Reservations are made by telephoning to Mrs. George Bucholtz, 1211 11th, or Mrs. H. M. Peiss, Bell 1432, and all be in by Thursday evening.

Men in the Banks

While many of the men of Kenosha were solidly and staunchly behind the movement for city management, the women did the work of organization and it will be an interesting thing to hear how they did the job.

Stores Hire Extra Help to Care for Rush Expected, Friday.

"Make every penny count" is the slogan of Janesville's Dollar day which will be held by local merchants, Friday.

During the past week, the retailers have been going through their store books looking every possible reduction to guarantee exceptional bargains to purchasers. Prices and values that will outdo those at the last, unusually successful dollar day, are the standpoint of the customer are offered.

Extra clerks have been hired to take care of the rush.

Preparations have been made to handle an even larger crowd than at last dollar day with many people expected from nearby towns.

A list of official dollar day stores has been issued. These will display "Official Dollar Day Store" signs, do not have any other signs, do not have any other signs, do not have any other signs.

Stores having these signs are "official," and the bargains are to be found in them.

Former U. S. Treasurer Loses All in Collapse of N. Y. Brokerage Firm

(By Associated Press.)

New York.—Liquidation of the brokerage firm of Kordas and Burke, which Wednesday night went into the hands of a receiver, was variously estimated here Thursday at from \$700,000 to \$1,500,000.

John Burke, former treasurer of the United States, whose signature appeared on bank notes issued from early in 1913 until his resignation a little more than a year ago, declared the collapse of the business. Burke, who had been associated with him in business said he thought he had been an "innocent dupe" in the development of the amazing situation revealed by the liquidation.

Immediately after the receivership was made known, Mr. Burke, whose home is in Washington, resigned as president and director of the Progress National bank of this city.

A. H. Walsh, vice president of the bank, Thursday issued a statement that "Mr. Burke had lost everything he had in the operation of the bank," being simply an honorary president.

Speaking of Mr. Burke, Mr. Walsh said, he was "a very nice man, but probably had been ill-advised."

Business at the bank went on uninterrupted Thursday.

The firm's affairs were to be discussed at the office of the attorney for Robert A. Stephenson, receiver.

10,000 RAILROAD FIREMEN, OILERS HIT IN WAGE CUT

RAIL LABOR BOARD ANNOUNCES RULES FOR MARCH 1.

"Split Trick" of 8 Hours, Without Overtime Pay.

(By Associated Press.)

Chicago.—Another pay slash, this time hitting 10,000 stationary firemen and oilers, was made by the United States railroad labor board Thursday, when it announced rules effective March 1, eliminating extra pay until after the tenth hour and setting up a "split trick" of 8 hours within a spread of 12 without any overtime pay.

Following several other decisions virtually restoring the ten hour day for railroad workers, the board Thursday authorized the route to regular 8 hours which the board retained in principal as constituting a day's work. Time and one-half will be paid after 10 hours.

In the case of the split trick straight time will be paid for the first 10 hours worked, whether included in the 12 hours spread or not and time and one-half will be given thereafter.

Formerly the firemen and oilers all of whom work around a round-the-clock basis were paid time and one-half after 8 hours.

Sundays and holidays will be paid for at the normal rate, a minimum of three hours pay being made for two hours work or less. Monthly employee wages are to be adjusted to eliminate the old time and one-half provisions.

Supplant 1920 Agreement

Ten rules regarding discipline, grievances, discrimination against committeemen and similar matters were handed to the employees and the roads for further discussion. The board's new rules supplant the national agreement made during federal control, which has been in effect since Jan. 15, 1920.

USE DETROIT TIP IN TAYLOR SEARCH

Police Seek Revolver Claimed by Prisoner to Have Been Fatal Weapon.

Los Angeles.—A second search was planned here Thursday of the location where Harry M. Fields, under arrest in Detroit, was reported to have said the pistol used to kill William Lloyd Taylor, film director, had been disposed of. Deputy sheriffs made a search Wednesday night on receipt of a telegram from Detroit authorities containing Fields' alleged declaration on this subject, but without results.

They also announced they would look for a bank teller who, according to other information from Fields, carried a \$1,000 bill in order that persons named by him as having committed the murder might have \$100 with which to pay him for driving the automobile in which they rode to the Taylor apartments.

IAS RECORD AS DRUG PEDDLER AND THIEF

New York.—Harry M. Fields, held by Detroit police, has a long record here as a drug peddler, pickpocket and stool pigeon for federal authorities. He was arrested Thursday by Narcotic Agent Ralph Oiler.

Mr. Oiler caused Fields' arrest at Buffalo, N. Y., and sent him to Detroit, where he was wanted on a Federal charge. At this time, Fields told the police he came from Philadelphia. He has claims to have a wife and four children in Los Angeles.

Fields came to New York from the Pacific coast. Eight months ago he went to Canada to avoid trouble with the New York police. Mr. Oiler said, when he returned in November, he was found to be a confirmed drug addict that he was useless as a stool pigeon and Mr. Oiler discharged him.

Body of Child, Kidnap Victim, Found in Wood

Baltimore.—The body of 8-year-old Clara Stone, who disappeared after she was taken from her home Tuesday morning, was found late Wednesday in a clump of woods at the eastern edge of the city, her school books lying by her side.

The fact that the child's shoes were not covered with mud is believed by the police to indicate she met death elsewhere and the body was thrown into the woods. The spot where she was found is about a quarter mile from any road.

Police had been hunting for Clara ever since her parents, Mr. and Mrs. Herbert W. Stone Jr., of Northeast Baltimore, reported her disappearance from school last evening.

IRISH OPINION Is Divided on Convention Act

Dublin.—General satisfaction seems to be felt in southern Ireland over Wednesday's surprise decision of the Ard Fheis for a three months adjournment at the end of which time the people will be asked to vote on a constitution as well as on the Anglo-Irish treaty. This opinion is not unanimous, however. Some staunch supporters of the treaty are disappointed, and inclined to agree with John A. MacDonagh's declared opinion that the "agreement was clearly a republican victory."

The treaty bill now before the imperial parliament, it is contended, is shattered to a great extent by the Ard Fheis decision.

Here's How News Gets Through to Reader in Times of Emergency

Chicago.—A telegraph circuit more than 3,000 miles long, to carry news dispatches an airline distance of less than 400 miles, has been necessitated by the heavy sleet and snow storms sweeping across the northern part of the United States.

Early Wednesday, the Associated Press lost connection with all points north of Milwaukee because of the storms which have virtually isolated Minnesota and northern Wisconsin. Early Thursday communication with the Twin Cities was established through a circuit extending from Chicago through St. Louis, Kansas City, Denver, Billings, Mont., and back through Fargo, N. D., into St. Paul.

This circuit failed to last, however, and after a short time another was set up running from Chicago to New York, up to Toronto, back to Winnipeg and into St. Paul.

On this circuit points in Minnesota, Thursday, were receiving their news of the world.

The dispatch from St. Paul, in another column, telling of storm conditions there, came via Fargo, N. D., Billings, Mont., Denver, Kansas City and St. Louis.

Baltimore.—The body of 8-year-old Clara Stone, who disappeared after she was taken from her home Tuesday morning, was found late Wednesday in a clump of woods at the eastern edge of the city, her school books lying by her side.

HUSBAND OFFERED HER FOR SALE TO RIVAL, ASSERTION

Newark, N. J.—Mrs. Emma Topovits testified Wednesday that her husband, John, offered her for sale for \$10,000 to the man with whom he accused her of misconduct.

"Tonight, whose wife is suing for separate maintenance, told Vice Chancellor Bakus that he mentioned the sum of \$10,000 for her services. He believed the other man had done him. He said he was the slave of his wife, doing the washing, cleaning the kitchen and taking out the garbage."

Swollen Rivers Wreck Bridges, Menace Cities

Swollen three and more feet by the continuously heavy downpours of the past three days, the Rock, Wisconsin and Pecatonica rivers have torn from their banks threatening untold damage to many towns and farms if the storm does not subside before night.

The thaw that accompanied the rain is loosening ice packs, ripping railroad and other bridges from their moorings, and adding terror to the flood.

CITIES AND POSTS OF LEGION WILL HONOR ROMA DEAD

SERVICES FOR ALL 34 VICTIMS PLANNED BY OFFICERS

CONDUCT INQUIRY

Broken Rudder Control Established as Cause of Blimp's Fall.

Norfolk, Va.—Members of the army investigating board Thursday continued efforts to determine the cause of the disaster which overtook the giant army dirigible Roma Tuesday, in which 34 of her passengers and crew met death.

That the fatal crash of the great airship followed a break down of the controls regulating the altitude appeared definitely established in testimony thus far given. Even that was the general cause of the disaster was expressed by Maj. General Patrick, head of the army air service.

The inquiry is proceeding behind closed doors. Of the eight injured all were said to be recovering with the exception of Charles Dwyer, superintendent of construction at Meek field, Dayton, O., whose condition is critical.

VALLEY IS FLOODED

Reports to the C. M. & St. P. here are that the entire Kankakee valley is under rising waters. There is no train service out of Mazonia. Overflying of the Rock river north of Watertown stopped trains to and from Fond du Lac and Oshkosh on the Chicago & Northwestern. Train No. 44 here at 5:10 a. m. was blocked and a train had to be made up in the Janesville yards to take passengers to Chicago.

Heavy snows around Spooner, delayed C. & N. W. trains. A train from Minneapolis got in at 11:15. The 5:20 a. m. from South Dakota arrived at 8:30. The 6:10 from Duluth reached here at 8:10 and the 7:50 from Fond du Lac at 8:20.

All C. & N. W. telegraph wires were down north of Baraboo. Although the rain turned to snow at 8 a. m., fear was felt that this might only augment expanding streams.

Rock Rises 3 Feet

The water line in Rock river at the dam at Rice creek has risen three feet since Saturday, according to Engineer Woodward. This is unusually high for this time of year. High water forced the closing of the Janesville Electric company and the Rock Electric company. Raising of the gates failed to cause the water to recede. The backwater at Fulton is four feet higher than normal because of a stoppage in the river.

GRANDPA'S CONSENT NOT YET GIVEN TO MATHILDE, IS CLAIM

(By Associated Press.)

Daytona, Fla.—John D. Rockefeller, grandfather of 13, is said to have refused to give his consent to the marriage of his granddaughter, Mathilde, to Max Oser, Swiss riding academy proprietor, has been announced by members of the McCormick family. He has not given his consent to the match, according to friends of Mr. Rockefeller here. Mr. Rockefeller is at his winter home at Ormond Beach. Harold P. McCormick, recently divorced, is Mathilde's father. Mr. Rockefeller is said to be planning to discuss the proposed marriage. It was said Thursday.

BRIDGE AT EDGERTON IMPERILED BY RIVER

Edgerton.—Rising of Saunders Creek Wednesday menaced the Swift street bridge. Warnings to Police E. J. Springer, the street department sanded icy approaches to the structure. Cellars on Main and Swift streets are flooded. A third of the municipal park is covered with two to four feet of water. The freshet is the worst since 1915, when 100 Edgerton families were rendered homeless.

Diary Proves Identity of Former Evansville Youth, Dead in Cincinnati, Belief

According to reports from Cincinnati, Earl Mills, son of Doran Mills at one time a lumberman of Evansville, died Sept. 20, 1921, and that remains of him lies in a coffin at the Cincinnati crematory. This opinion is not unanimous, however. Some staunch supporters of the treaty are disappointed, and inclined to agree with John A. MacDonagh's declared opinion that the "agreement was clearly a republican victory."

RAIN FOLLOWED BY COLD WAVE OVER WIDE TERRITORY

DROP IN TEMPERATURE FELT THURSDAY IN MIDDLE WEST

REPORT BLIZZARD Northwest Hard Hit as Gale Drives Snow Into Huge Drifts.

(By Associated Press.)

Chicago.—The cold wave that has held the whole northwest in its grip for more than 24 hours, continued here Thursday and spread down through Iowa, Missouri, Oklahoma, Kansas and Northern Texas, as well as east of the Mississippi river. The drop in temperature was felt early Thursday in Chicago and the mercury kept sinking as the day advanced. By Thursday night, the thermometer was expected to be hovering about 10 above zero, according to forecasts although Wednesday Chicago had its warmest temperature in Washington's birthday since the establishment of the bureau here in 1871, when the mercury reached 37 degrees.

Illinois and Indiana, which reported high temperatures Wednesday, were beginning to feel the cold snap Thursday, and indications were it would move farther eastward rapidly.

RAIN TROUBLE TO STORM

In Missouri, Kansas, Oklahoma and Northern Texas, the warm southerly rain of Wednesday had turned to sleet Thursday with the sudden drop in temperature to below freezing.

In the northwest temperatures continued to fall with the mark-rushing rain to 12 below zero in Minnesota and the Dakotas. Train schedule and wire communication were still seriously interrupted. One death was reported in a Rockford, Ill., through a short-circuited electric wire due to the storm.

Northern and southern Minnesota were in the grip of the blizzard as well as western Wisconsin.

PALMYRA MURDER SUSPECT CAUGHT

Fred McBride Arrested in Akron, O., Will Be Brought Back.

Fred McBride, wanted by District Attorney E. J. Twining of Jefferson county to explain certain things in connection with the death of Edward Thelen, whose body was found in Miracle Creek, Dec. 31, 1920, was arrested in Akron, O. Word to this effect was received by Mr. Twining Thursday, according to a special dispatch to the Gazette.

McBride, alias "Rocky" DeLoach, will remain in custody until he can be brought to Jefferson probably Saturday. An officer has been sent to get him.

McBride is charged with the murder of Edward Thelen. He was the last one seen with him; is known to have purchased a 22 calibre revolver from an East Troy hardware store, and to have sold the same to George Thelen, who was killed by a shot from a 22 calibre revolver, fired at a distance of about three or four feet, it is believed.

Both men were employed on the George Thelen farm near East Troy on the Janesville-Milwaukee road, and were companions.

SILK, WOOL AND STRAW MAKE THESE JUVENILE HATS

Perhaps the ancients could not make hats without straw, but the modern milliners are not so hard on straw. Here are three pretty little hats for the juvenile filio. They are ideal for school wear and are made of silk, wool and straw. All three of these hats are becoming to both the long and short-haired girls, which makes them doubly appealing.

WHAT HAS GONE BEFORE.

George Morton goes to work at the home of Sylvia, a rich man, when his father loses all his property—a lively business. George becomes a horse trainer and as a part of the job acts as groom to Sylvia, who when she rides Sylvia is thrown from her horse and thinking her unconscious, George kisses her, calling out that he loves her. She drives him from the house and George goes to his brother, who goes to horsework him, but in a fair fight. He seeks an education, goes to Princeton, meets Sally, a tutor, gets a place on the football team and aids his college to win from Harvard. He makes many acquaintances. He has determined that Sylvia Platter shall marry him and meets her several times each time seeing her and widening the breach between them. But he continues in the determination. Betty Alister, very kind to George, and at her home meets her friend, Sylvia, which is embarrassing.

(Continued from Yesterday.)

George was a trifle uncomfortable. "What of it?"

"If you get a chance point out to her in your brotherly way that the sooner she marries me the more she will love me. I am not a beggar, but I can't very well get at her on that tack. Sounds shabby, but you know there's a good chance of my not coming home, and she insists on waiting."

With all his soul George shrunk from such a task. He glanced at the other's long, athletic limbs.

"There are worse fates than widowhood for war brides," he said, brutally.

Lambert made a wry face.

"All the more reason for grabbing what happiness I can."

"Pure selfishness!" George charged him.

"You talk like a fond parent," Lambert answered. "I believe Betty is the only one who doesn't think in those terms. She has other reasons; ridiculous ones. When I tell them to you, you'll come on my side."

"Perhaps," George said, vaguely.

Betty's obstinacy wasn't Lambert's only worry. Several times he opened his mouth as if to speak, and apparently thought better of it. George could guess the sense of those unexpressed phrases, and could understand why Lambert should find it difficult to voice them to him. It wasn't until they were in the car that the subject came up. Lambert managed to state his difficulty, in whispers, so that the sleeping baroness should be made restless. George noticed that the other didn't mention Sylvia's name, but it was in the air. Lambert said that he had been there in every word, with a sort of apology for her, and a relief that she wasn't after all going to marry one so much older and less graceful than herself.

"I wish you'd suggest a way for me to pull out. I've thought it over. I can't think of any pretty one, but I don't want to be under obligations any longer to a man who has been treated so shabbily."

It amused George to find himself in

Something queer is happening in the Clark home. It's also happening in the Smith home, and the Roberts family and a lotta other families in this broad, upheaving land. So I'm going to talk about it.

What's the matter? Ned Clark was married last June. Eleanore had a dandy position with an insurance company. Ned had an equally good position with an automobile agency. So the Prince bought the Princess a

Heart and Home Problems

BY ELIZABETH THOMPSON.

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I should like to know what should be done to stop untrue gossip.

It seems to be a habit of the people of this locality to talk about young people and of course, there are always some who believe all that is told them. What should a person do to let them know the truth?

I am a girl of age and do not wish to have people believe anything untrue of anyone. I have always tried to do what was right and I think it is the duty of every person to try to keep their reputation. I have never kept company with young men to any extent.

CURIOUS LOOKS.

Gossip is one of the most difficult problems in life to handle. Most of it is untrue. The smallest statement can be misconstrued and distorted until it is enough to ruin a reputation.

The victim of gossip can try to create a new impression by irreproachable conduct. Such a course, however, avails little in most cases. The most satisfactory course is usually to start anew in a different locality.

When you hear unkind remarks about a person, try to counteract the effect by making a kind remark about that person. Stand up for people and you will squelch gossip and make friends.

Dear Mrs. Thompson: I am a girl eighteen years old and am in love with a man several years older than I am. My people all dislike him because of a few bad habits he has. Should I forget his advice? Does a girl over eighteen have to do anything her people tell her to do? Please tell me what you think best for me to do.

OLIVE ANNAETLE.

A girl of eighteen is legally free to make her own decisions. If she

is sensible, however, she will weigh the opinions of her parents, realizing that they have years of experience back of them to help them in their judgments, and that they are advising you out of love for you.

Whether or not you should obey your parents in the matter of marrying the man with whom you are in love, should depend upon the nature of his bad habits. If they are only superficial and merely bad manners instead of vices, they should be given the same tolerance you have given them before. Perhaps, too, you could do much to correct his failings. Great tact and kindness should be used if you attempt to correct.

My advice is to wait a year before you make a definite decision. You are very young to make your choice of a husband now.

Dear Mrs. Thompson: We are two high school girls and are considered very beautiful. In the few months we met two very nice fellows about our style, as we thought, but they do not come as often as we used to. Please tell us what to do to win their love. It is not our dress, for we are considered fashionable and very nice dancers. Please tell us what to do to win them back.

Do not try to win the young men. You will profit more if you look back on your relationship with them and decide why they lost interest in you. Possibly you let them make love to you, and after a time they got tired of love-making with you and looked elsewhere for other pretty faces. The girl who "pines" or relies upon it to keep the interest of a man almost always loses out. Brains are needed even more than a pretty face if a girl wants to be popular and keep her popularity.

"Tinker Bob" Stories

by Carlyle H. Holcomb

LITTLE TIM TAKES A HIDE.

You remember little Tim. Elephant was taking Tinker Bob and Silky on a journey and they came to a river and little Tim proved to the Forest King that he could swim. Then suddenly some natives came along with the idea of capturing him. They made a great shout which they thought would so frighten him he wouldn't know what to do and that in his confusion they could easily capture him. When Tim realized what had happened the first thing he did was to sound the trumpet, long and loud. His mother had taught him to make a trumpet sound through his trunk. Of course the natives knew what that meant. It meant that there would be a half dozen or more elephants appearing very soon. It would be necessary to capture Tim and get him safely away before they came or it would be a hard fight.

Silky was frightened nearly to death for this was a new experience for him. In fact it was a new sign for Tinker Bob but he was not in the least frightened. Old Man Experience had given Tinker the necessary things to protect himself with. When the natives saw Tinker Bob they hesitated a little, not knowing just what to make of it. It was a strange sight to behold a little boy in the midst of the jungles. Some thought they had spied a new kind of creature. Some thought it was a Spirit they saw. Some were afraid,

Tim had been said to him and he loved the clumsy little fellow.

and trembled. But their desire to capture Tim was uppermost in their minds and they began to scream great roars. Tim was so nervous that he didn't know which way to turn. Like all of the other children he just stood still and called with his trumpet for his mother.

The natives were not long in making ready their ropes and their little boats. The boats were in a position that could be easily reached by the natives so that when Mrs. Elephant and her helpers should come along they would push out into the river in safety.

Tim began to run. But with natives all about him, heading him off in every direction, he had to turn every way and was not getting far from the place where he came out of the river. Then he became so frightened that he could not sound the trumpet. He had felt the sharp

RECIPES FOR THE DAY

Macaroni and Tomato—Cut up eight slices of macaroni in small pieces, add two onions cut fine, and fry until brown. Then add one can of tomatoes and let cook one-half hour. Cook macaroni in salted water until soft, then mix all together and put in baking dish and bake cheese on top. Put in oven and bake fifteen minutes.

Chocolate Cookies—One cup sugar, one egg, three-quarters (scant) cup of melted butter, three-quarters cup sour milk, one and one-half cups flour, one-half teaspoon baking soda, one-quarter teaspoon cream of tartar, one-third cup chopped nuts, two lump tablespoons cocoa or chocolate. Drop in small quantities on greased tin and bake in moderate oven.

Cream of Celery Soup—One head of celery, one tablespoon of chopped onion, one pint of water, one pint of milk, one tablespoon butter, one tablespoon flour, salt and pepper. Wash and scrape celery, cut in dice. Put into one pint of boiling salted water and cook until very tender, add onion. Wash in water in which the celery was boiled. Rub all through a strainer, add milk, thickener with flour and butter creamed together and season. The green tops of the celery and tougher stalks in a bunch may be utilized for the soup and the tender parts served on the table.

Cherry Pudding—One egg, one-half cup sugar, one-half cup sweet milk, two cups flour, two tablespoons baking powder, one cup stoned cherries (pitted or raw), without the juice. Steam two hours. Serve with cream and sugar or any preferred sauce.

SUGGESTIONS

The vacuum cleaner is not only a dust and grit cleaner; it is a grease spot remover as well. To freshen up the rug and clean it of unsightly spots, without incur a large bill for a professional bill, try this:

Mix six parts of corn meal with one part salt. A 2x12 rug requires three quarts of this mixture. Rub the meal into the rug.

A great many people during this unpleasant period of the year write to me complaining of chilblains. If this affliction is not cured it is apt to come back winter after winter and to become more painful every time. Here is a somewhat heroic cure. It is an old-fashioned remedy but, like

Then run the cleaner over the rug. Grime spots, streaks and soil will vanish with the salt and meal.

This is a timely cleaning hint for the immaculate housekeeper who just can't wait until spring housecleaning to remove winter's grime.

When a nail becomes loose and plastering begins to break it can be made solid and firm by the following process: Saturate a little wadding with thick dextrin or glue, wrap as much of it around the nail as possible and reinsert nail in hole, pressing it home as strongly as possible. Remove excess of glue or dextrin, wiping it off cleanly with a clean wet rag. Then let dry. The nail now will be firmly fastened in place. If the loose plastering be touched with the glue and replastered it will also remain firm and solid.

put too near a fire or any intense heat.

Little—Your roughened elbows will yield to a treatment of cold cream rubbed into them every night. Also scrub them well every day, using a bath brush.

Anxious. E. B. C. Gushy—It often happens that growing girls appear to be out of proportion when it is merely due to the fact that one part of the body is attaining its development ahead of the rest and in a few years there will be an even growth.

Steady Reader, Subscriber, N. G. C. Blue Eyes—Imples and blackheads usually have their origin in a disordered digestion and to correct that will clear the skin. These skin eruptions relieve the body of waste which would cause illness if retained in the system. Blackheads are first, coarsened pores that have been so through overwork.

The treatment for all this is to clear the system and keep it so by eating properly. A daily warm bath will clear the complexion because it opens the pores over the body relieving those of the face. If the pimples continue after that there are other reasons for them requiring the attention of the doctor.

A gambler named George used to visit a Chinaman's place and smoke opium almost daily. One day he rushed in and said excitedly, "Hip, loan me \$10. Thanks, I'll come in with it tomorrow noon. If I'm alive." And out he went with the money.

About 3 o'clock the next afternoon a friend of the gambler dropped in on the Chinaman and said: "Hip, where is George today?"

The confiding Celestial wiped his eyes with the corner of his house and replied: "George, him dead."

FREE At All Dealers THIS WEEK

Your dealer will give you a 15-cent trial bottle of Palmolive Shampoo. Accept it for your own sake and watch how your hair improves.

We Blended Palm and Olive Oils To beautify your hair

This free 15-cent trial bottle contains ample quantity for one luxurious shampoo, no matter how heavy your hair. Use it and watch results.

See how soft it makes your hair, and how fluffy. Admire the attractive, well-groomed gloss.

Notice how clean it leaves your scalp, how all scurf and dandruff are completely removed. Ordinary shampooing doesn't get these results. They are due to palm and olive oils.

Softening cleansers

Olive oil possesses softening qualities which neutralize the drying effects of washing. Palm oil contributes body, richness and lasting qualities.

In combination they produce a thick, mild, profuse, penetrating lather which softens the scalp and reaches every root and hair cell.

This lather loosens the dandruff scales, dislodges and dissolves them, leaving the scalp and hair free to function healthfully.

Prevents Baldness

This thorough removal of dandruff, which doctors call seborrhea, is most necessary, as even the accumulation on healthy scalps injures the hair.

The dry, oily scales clog the roots of the hair, preventing proper nutrition. Soon the hair begins to fall out. Ordinary washing has little effect, often seeming to make the condition worse.

The blend of palm and olive oils you get in Palmolive softens and penetrates the scales, loosening the cap-like accumulation.

Gentle massage forces it into the tissues of the scalp, leaving it healthfully purged and clean.

Silky texture and satiny gloss

Such scientific shampooing is the basis of beauty, for it keeps both hair and scalp in perfect health.

It stimulates circulation, which carries proper nourishment to your hair. It regulates the minute oil glands which give your hair gloss and luster. Hair shampooed with Palmolive is neither brittle nor oily, but soft, glossy and silky.

Present the coupon at once and prove that these statements are true. One shampoo with the blend of palm and olive oils begins the transformation.

MOVIELAND

Enid Bennett has been induced to return to the screen. Douglas Fairbanks is responsible for her return to pictures. She is to have the leading feminine part in "The Spirit of Chivalry," which is the temporary title of Fairbanks' new picture. This will be Enid Bennett's first part since she retired to play the role of mother in real life. Fred Niblo, the well-known director-husband of Enid Bennett, will not direct his wife and Fairbanks in this picture. Allan Dwan will wield the megaphone.

The picture is a costume story dealing with the period of the Crusades and the early history of England. Fairbanks will play a legendary character against a background of historical figures. Dawn, Lotta Woods and Kenneth Davenport of the Fairbanks scenario department are now doing intensive research work for the feature.

CHICAGO MURDER DEFENDANTS GET OFF EASY IN '21

Chicago—Less than one out of four of all the defendants tried for murder during 1921 in Cook County, which includes the city of Chicago, were convicted, according to the report of the Committee on Statistics of the Chicago Crime Commission, made public here today.

Out of 31 cases and 24 defendants charged with manslaughter, only one defendant received a sentence to a penal institution, according to the report which notes: "This indicates that a man has 34 chances to one of being convicted, 97 per cent escaping punishment."

In cases involving 225 defendants charged with murder there were only six death sentences. One of these was in the case of Thomas O'Connor, now a fugitive from justice, the report says.

175 Railroads File Petitions for Wage Cuts

Chicago—More than 175 railroads, including every big trunk line in the country except the Pennsylvania, had filed petitions for wage reductions for all classes of employees when the wage board was closed at the United States railroad labor board Wednesday.

Unexpected counter proposals for wage increases were filed by seven labor organizations, in addition to the increase of 13 cents an hour over present wages asked by the six railway shop crafts unions as announced two months ago.

Hearings on the wage disputes for all classes of employees except the five train service brotherhoods—engineers, firemen, conductors, trainmen and switchmen, will begin March 6, the board's submissions generally seeking restoration of wages paid prior to May 1, 1920, when the board's first wage awards, amounting to \$900,000,000, became effective.

YANKS RUNNING RAIL LINES FOR GERMANY

Coblentz—Branch lines of German government railways within the occupied area are being occupied by several American engineer battalions as part of a course of instruction of the army railway school established some time ago by officers of the American forces in Germany.

The train crews are made up entirely of American soldiers, and on the train dispatching on the short lines is done by members of the organization who are taking courses in railroad telegraphy.

The first platoon of Company A, Sixteenth engineering battalion, has been operating three trains daily between Kreuzberg and Jankers in the Ahr valley, near Coblentz, several months and has, never had a serious accident.

KU KLUX HONORS "REAL AMERICAN"

Denver—Pinto white robed and hooded members of the Ku Klux Klan appeared suddenly at the funeral of Dr. Charles E. Locke, at Fairmount cemetery Tuesday, placed a beautiful floral offering on the grave and disappeared. A letter bearing the seal of the Denver, Colo., Klan, Number 1, Knights of the Ku Klux Klan, was mailed to Denver newspapers, stating that, although Dr. Locke was not a member of the organization, they desired to honor him as a real American.

NEW SOUTH WALES CHECKS LEPROSY

Sydney, N. S. W.—Encouraging results are attending the efforts of the health authorities in Queensland to check leprosy with the treatments of the chaulmoogra oil specific evolved by Dr. A. L. Dean, president of the University of Hawaii, according to a health board announcement today. Discharge of five European patients from the Peel island lazarette, near Brisbane, is contemplated, as the treatments have removed all traces of the disease from them. The five patients include one woman, and frequent tests during the past year failed to reveal symptoms of leprosy, it was said.

Today's Short Story

By GEORGE T. BYE

Illustrations by ARLENE COYLE

THE FLOUR GIRL

You won't believe me, but I am going to say it anyway. This is a true story. I can't fool around getting affidavits and notaries' seals every time I write facts, but that would be necessary to induce people to believe me. Since I began writing a short story a day I cannot open my mouth without people settling back to hear another yarn, and my wife is as bad as all the rest. If I look up to tell her I think it will be a cold day tomorrow, she immediately responds with the maddening question, "Yes, and then what?" Good heavens, I'm not romancing all the time!

Anyway, whether she or you believe it or not, this is a true story. It was revealed to me on a recent delightful excursion in Virginia. The girl's name is something like Katherine-Judge; she is a demonstrator of a fine grade of soft-when-flour, and this fine soft four she demonstrates in a nearly so soft as the Alabama "rs" that fall from her tongue like fragments of feces.

It is Katherine's story, I spend a few weeks in each town showing the high quality of biscuits and pastries that her flour makes. She does not demonstrate in the office of any companies. Then she visits wholesale grocers and retail stores. Those Dixie blue eyes of hers and that smile of Southern gladness have

lighted a way for her into the hearts and order books of every Virginian she has met.

The train on which I met Katherine was bound for Lynchburg when we were held up by a wreck. Faced with a three-hour delay, I asked Katherine if she would not like to have dinner with me.

"That would be a nice way to pass the time," she answered, "but my friends will be waiting in Lynchburg. I'm spending the week-end there, and they're sure to hold supper, so it wouldn't be fair for me to eat now."

"All right. Supposing we just talk then. How would you like a story to be written about you, called 'The Flour Girl,' and ending with some lucky man getting you?"

"No, sir," protested Katherine. "That wouldn't do at all. I know a man who would go up in the air if he would read that."

"He wouldn't care. I'd misspell your name a bit, and not tell where you are from."

"Well, but he knows me as a flour demonstrator and that would catch his eye. That man wants to put the happy ending to my life, and whenever he gets ready I want to let him."

"Fine. Just give me his name,"

and I'll have you falling into his arms at the finish!"

Katherine narrowed her eyes. "Man, what are you-all saying? Do you want my friend to think I am coaxing him on? We don't do things like that in the South. In a year or

"Man, what are you-all saying?"

so he is just naturally going to get restless with me on the road and everything, that he will ask me to marry him before he is financially able, and then the little money I have saved up will come in handy."

"That's a wonderful story! Please, can't I use it?"

"Well," she said, smiling, "it seems a powerful queer story to me. I can't stop you repeating our con-

versation, so go ahead. But it does seem foolish."

Kakuske, Local Milton Star, Signs With Rockford Nine

Copyright 1920 by Geo. McManus

WAS HIGH SCHOOL STAR; PLAYED ON LOCAL BALL CLUBS

(By Gazette Correspondent.)
Milton—Herbert P. Kakuske, Janesville lad well known as a Milton college athlete, has signed a contract to play with Rockford in the Three League this coming season. He has won his "M" in all major sports at the local college and this year is captain of the basketball team. He will not report to Rockford until after receiving his degree from Milton at the commencement exercises in June.

Several years ago, Kakuske won a reputation as a "sand-lot" pitcher in Janesville and starred on the Janesville high school team. Last year he played with Palmyra in center field also with the Janesville Club Billiards.

In 1924, he pitched for the Janesville Red Sox, winning 13 straight games when his arm went bad and has been ever since. He was a member of the "Janes" of several years ago. Kakuske is always counted on for at least one hit each game. He is a sure-base runner.

Spring is here! Clark Griffith, manager of the Senators says the Washington Americans will win the pennant of the junior baseball wheel this year. Now for bear stories from training camps.

Ball players are still dreaming of silk shirts and automobiles. Col. Henson, part owner of the Yankees. Something similar was said a few days ago by Frank B. Smith, city assessor who played with the Janesville Mutuals in 1897. "We played ball in those days for the fun of it," he declared, "condemning the present high salaries. Players are holding out for \$250,000."

There is little use to establish an honor system in college athletics to combat professionalism unless it is possible at the same time to possess an honor code. Thus quoted B. M. Hopkins of Dartmouth. The which exists, he says, need clarification and "explanation to a degree that shall make manifest not only their propriety but their desirability for the good of sport."

Athletics for everybody is the suggestion of J. P. Pence, state secretary of the Illinois Y. M. C. A. The Gazette has long urged greater boosting for more participation in the open air. Dr. Blake, head of the Life Extension Institute, states the death rate among persons over 40 is increasing because people are not getting sufficient life in the open air and are making excessive use of stimulants and sedatives. He advocates working hard while working and playing hard while playing.

Milwaukee has been placed upon a program this year of the great western circuit of the American Trotting association. The dates are Aug. 25 and Sept. 1 with purses totaling \$22,000. Other cities are Davenport, Aurora, Hamilton, Omaha and Springfield. It is about time Janesville were considered.

Golf is running all and the Ku Klux Klan a close race for excitement in Texas, says Bob MacDonnell, former Chicago open-champ. "Not even in my native Scotland have I seen such a widespread mania for golf as in Texas."

A stadium seating 12,000 and costing \$100,000 is being talked for Marquette university, Milwaukee.

Tommy Milton, 1921 champion and world speed demon, winner last year of the Indianapolis 500-mile auto race has filed his entry for the May 30 race.

Beloit college will send its crack basketball team to the Wisconsin University of Wisconsin carnival Saturday. The members are Ray Reitz, Bielsdell Gates, Captain Picken and Clayton Addie. The Gold will also enter the special events.

The National Athletic club, Milwaukee, Frank Mulhern, manager, was suspended by the athletic commission for violating contract rule.

Ingal Anderson won standing jump in international ski contest at Lake Placid with 102 feet.

Tud Kent won the American dog derby at Ashton, Idaho, in 2 hours, 35 minutes.

Robert McAllister, New York policeman, set new world's indoor record for the 110, 120, 130, and 150 yard dashes.

New York players won every preliminary game of national basketball tournament at Boston.

Italy has challenged for the Davis lawn tennis cup.

E. T. Appleby, national champion, won the international 18-2 badminton amateur title.

Oscar Halberg averaged 233 4-5 in world pin meet at Chicago.

Henry Schwieger, 16 year old son of "Doc" Schwieger of the Janesville club, set the home's desire of every rifle shot Wednesday night when he made a "possible" 100 out of 100, prone. Last Sunday he made 92. "Doc" Loofboro, Hull and Nott also made a possible 100.

NOTICE, WHITEWATER ARYLE SPEAKS

Speaking Editor, The Gazette:

As to Evansville's article in yours of the 18th inst. relative to Evansville-Arlyle basketball game at Arlyle, Wis., this was Arlyle's 17th victory this season and in justice to this team, wish to make following statement:

According to official score record, nine fouls were called on Evansville and four on Arlyle. Six of the Evansville fouls were in two men. There was no time Evansville was in the lead at the end of any quarter. While time was being called a spectator walked out on the floor. Evansville obtained a free throw and missed. Arlyle made two free throws and Evansville a free in all.

The game evidently was too fast for Evansville.

4 Men in 7 Bald at 40

—yet 95% needlessly!

Science discovers falling hair due to simple infection (Sebum). Now quickly overcomes it.

Pay Nothing

Unless we grow hair. The Van Ess treatment is absolutely guaranteed. You are the sole judge. The warrant is signed by your own druggist. You assume no risk making this test.

Written Guarantee to Grow Hair This New Way

This is to offer you, under absolute money-back guarantee, the new Van Ess treatment, which, under clinical tests, grew hair on 91 heads in 100.

It embodies new principles. Principles heretofore unknown to science. Now high authorities say baldness soon will be a rarity. For hair roots seldom die. And this method revives them. Test it yourself at our risk.

Hair Roots Rarely Die

Records show 4 men in 7 are bald, or partially bald, at 50. Modern science proves this to be unnecessary. Proves only 5 men in 100 need ever be bald!

Baldness is not a disease. Note this fact and mark it. It is merely a symptom of infection—an infectious scalp oil, known as Sebum.

Remove this infected Sebum and hair will grow. Under the bald scalp, the hair roots live. This is true in 95% of all cases of falling hair or baldness.

This new method reaches the roots. It makes hair grow. But the public has often been deceived. So we guarantee it. You take no chance of loss.

New Hair or No Money

We make our guarantee without reservation—without strings. It is absolute. We guarantee to stop falling hair in two weeks. We guarantee to grow new hair. If we fail, your money back without question.

Note that your own druggist signs the guarantee. Thus you assume no risk.

It is safe for us thus to guarantee the treatment. For experiments of years prove it effective on 91 heads in 100. Foremost authorities approve it. World noted dermatologists now employ it—many charge as much as \$500 for the treatment.

We offer it, in correct form for home use, at the price of an ordinary "tonic."

The Infected Sebum

95% of all hair troubles are traced to infected Sebum. It is an oil that forms at the roots of the hair. Its natural function is to supply the hair with oil. But it cokes on the scalp. It forms a breeding place for bacteria. It clings to hair and destroys it. It lodges in hair follicles and plugs them. Then germs by the millions start to feed upon the hair. Semi-baldness soon is marked. Then comes total baldness.

You can see this Sebum on your scalp, in the form of an oily excretion. Or, when dried, as dandruff. But it does not kill the roots. Hence when you remove it, new hair grows. This is scientific fact—medical authorities will tell you so. You must remove the infected Sebum.

Now We Remove It

For years, science experimented to combat infected Sebum. Finally a 95% effective specific was found. Now we have embodied it in a home treatment. It is called Van Ess Liquid Scalp Massage.

It is applied a new way—a scientific way. (Note illustrations above.) It penetrates to the follicles of the hair. It combats the Sebum and removes it. Results are marked. They are quick. In two weeks it stops falling hair. It grows new hair with continued use.

We urge you to try this new way. We know the statements we make are amazing—almost incredible. But remember, we back them with an absolute guarantee.

Note the results yourself. Mark the healthy condition of your scalp—the freedom from dandruff. Look in your mirror—see for yourself.

Go today to any druggist's. Obtain the Van Ess treatment. With it you will get our guarantee, signed by the druggist from whom you buy it. Hence, it is folly not to try it.

Note this New Way

—It Massages the Treatment Directly into the Follicles of the Hair

This patent applicator makes hair treatment, at home, possible for the first time. Blood alone revives. Treatment must reach the infected area under the surface. We accomplish it, as the illustration above shows, with hollow nipples of scientifically perfect rubber massage-cap which comes with every bottle of Van Ess Hair Grower. The lotion is fed directly into the follicles of the hair. At the same time the flow of blood is stimulated by massage to the hair root.

These two pictures show a cross section of the hair root or bulb and the case which encloses each hair from the root to surface of scalp (greatly magnified). Germ infected Sebum causes hair to fall out and falling hair. Remove it and hair will grow. Illustration A shows Sebum infected hair and B healthy hair.

From 10:10 a. m. to 4 p. m. Saturday there will be talks and discussion led by older boys and leaders of the conference.

At 4 p. m. the recreation period will be held by A. F. Grimm of the association at Madison.

Of the conference banquet will be held in the Methodist church. The following topics will be discussed: "We Are Here," Russell (Cape); "Welcome," J. J. Phoenix; "Character Values in Play," A. F. Grimm; male quartet, Methodist church choir; "The Older Boys and Life," Dr. A. Wakefield Slater of the "Y" College, Chicago; "The Spirit of Phantom Camp," Ray V. Sower, Milwaukee.

Sunday afternoon there will be a mass meeting for men and boys at the Congregational church beginning at 2:15. The male quartet of the Congregational church will sing. W. L. Chandler of New York will speak on the subject, "The Eternal Conflict."

The union young peoples' meeting and the union meeting of the churches will be held at the Baptist church Sunday evening. Ray V. Sower of Milwaukee will be the leader of the young peoples' meeting and W. D. Chandler will be the speaker at the union meeting.

Dr. A. Wakefield Slater will have charge of the singing during the conference.

WOUNDED SOLDIERS ASK HARDING'S AID AT WHITE HOUSE

President Harding with delegation of wounded soldiers photographed after their conference at the White House.

Wounded soldiers from Walter Reed hospital, handicapped by loss of limbs and other injuries that bespeak the sacrifice they

made in the World War, recently called on President Harding at the White House to urge him to keep in mind their plight and ob-

tain legislation in some form in the near future which will aid them. The president assured

MONTREAL FIGHTS WATERWAY PLANS

Schism Seen Between East and West in Canada Over Project.

Toronto.—Recommendations of the International Joint Commission for the carrying out of the St. Lawrence deep waterway and the improvement of the project by President Harding have produced a cleavage in Canada similar to that in the United States. The whole Dominion west of Montreal and the Ottawa River is gratified, Montreal, and the East are unsympathetic or hostile.

The city of Toronto for some time has been working on a scheme of harbor improvement involving an ultimate expenditure of \$25,000,000 in anticipation of the day when East-bound vessels from the ends of the world will be tying up at Toronto wharves. Other Canadian lake ports have eyes turned in the same direction. This does not mean that Toronto expects to become a rival of Montreal, Boston or New York, as an ocean port. Most people here appreciate the limitation of canal traffic and no one dreams of ever developing the long passenger liner of the high seas breaking the gray water of Lake Ontario. Hopes are centered on the more humble freight tramp.

Montreal, jealous of her position as head of all St. Lawrence navigation, will be actively hostile. But it is doubtful whether Montreal will be able to seem to appreciate the advantages of the project. In the present Dominion Government, to prevent sympathetic support of the proposals now put forward. Friendly sentiment in Ontario and the West is too strong. The West is ready to support the project for many years for some relief from killing freight rates. Ontario's chief interest is in the by-product of the project, the hydro-electric development.

Electricity Wanted in Toronto

Ontario has acquired experience at Niagara and elsewhere of what hydro-electric development will do for industry and for the comfort of the people. She already has a million horsepower in sight, but sees immense possibilities, dwarfing all past achievements in the St. Lawrence.

Opponents of the project, whether in Montreal or in the eastern States, do not seem to appreciate the objections on the ground of cost even if that cost runs to \$200,000,000 or \$300,000,000 are likely to lose their effectiveness when it is realized that the power development may pay for the whole cost of the ship canal.

Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, already developing 500,000 horsepower and shortly to have another 500,000 horsepower at Chippewa, sizes up the St. Lawrence project thus:

"The cost of power at Chippewa when fully developed will be less than \$12 per horsepower. The total undeveloped water power of the St. Lawrence River is in round numbers about 4,000,000 horsepower, 24-hour power, of which something over 1,500,000 horsepower may be developed in the International portion, and of which the Province of Ontario owns one-half."

Great Power at Low Cost

"It would be possible to supply a load of say 400,000 horsepower over a transmission line three

hundred miles long, and deliver twenty-four-hour power at a terminal station three hundred miles distant, so that it would not cost at the switchboard more than from \$25 to \$30 per horsepower year. This means that such power could successfully invade a market which was developing steam-electric power, at a cost in the neighborhood of \$60 per horsepower year, with a load factor of about 50 per cent.

"Within a radius in Canada of two hundred miles from Ontario's waterpower on the St. Lawrence River, and within a corresponding radius in the United States of three hundred miles, it has authoritatively been estimated that, by 1931, there will be a market for about 6,000,000 horsepower, and it is stated that, in addition to this quantity, representing as it does general per capita consumption, there will be special demands for electrical power to replace steam power; for the electrification of railways; and, in large blocks, for special new industries."

The recommendation of the International Commission—that the United States shall bear a part of the cost of the new Welland Canal because it is an integral part of the scheme—is described by the Toronto Globe as being so liberal that Canada will be obliged in self-respect to refuse the favor. The Welland Canal (costing \$60,000,000) being wholly within Canadian territory, we must build it unaided, so that there shall be no cloud on our title."

The general division of cost proposed by the commission, based on the degree of benefit as measured by freight tonnage, while recognized as likely to work out to the advantage of Canada, is meeting with some criticism on the ground of its unfairness. And the proposal to set up a joint board with a certain amount of jurisdiction over parts of the system, lying wholly within one country is also evoking some mild criticism. But these points do not effect the enthusiasm of land-lubbing Canada for the commission's report.

BANKERS OPPOSE TAX EXEMPTION ON BONDS

St. Paul.—Withdrawal of tax exemption on government, municipal and other classes of bonds is urged in resolutions adopted by group number one, Wisconsin Bankers' association, in convention here Wednesday.

The exemption has worked to the detriment of farm mortgages and other classes of "necessary" investments, it was set forth.

J. A. Player, Eau Claire, was elected president; E. L. Carr, Superior, vice president, and M. P. McNally, New Richmond, secretary-treasurer.

Chicago—Secretary of Commerce Hoover said in an address the "jeopardy of war has been most assuredly driven beyond our generation" by the accomplishments of the arms conference.

Thorough Seed Inspection Is Plan of State

Madison.—Seed inspection, required under Wisconsin law, will be assuming added importance with the approach of the planting season this spring, the department of agriculture says today in a statement.

The state law requires that all seed packages be labeled so that the purchaser may know just what he is buying. This label must show the name and address of the firm or person offering the seed for sale, the percentage of purity, percentage of germination, and in the case of corn, grain and alfalfa must show where the seed was grown.

If there are noxious weed seeds in the drop seed, the label must tell their variety—the percentage present, which if it totals one to 2,000 of the crop seed, it cannot be sold in the state.

Seed samples for testing by the state inspector at the Agronomy building, Madison, should be carefully taken, the department says. If the sample is not a representative one, the seller is liable to a fine of \$50.

The danger of spreading noxious weed growth is pointed out by the agricultural department in urging that farmers and dealers comply with the inspection law.

Convicts, "Moon" Makers at Mask Ball of Moose

Moonshine manufacturers rubbed elbows with kippie dolls, negroes strutted about with Red Cross nurses, and convicts danced with the Jiggs family, at the second annual mask ball of the Moose lodge at the Armory, Wednesday night. Attended by 400, the dance was a great success, with six different soloists singing during the intermissions as an added innovation, which proved a big hit. Walter MacFarland's 10-piece orchestra furnished the music.

Soloists appearing during the intermissions were: Arthur Schoof, David Reese, Theodore Duvoy, Edmund Teury, Alfred Olson and Roy Ryan.

Cash prizes totaling \$100 were awarded those in the best costumes, the largest prize going to a group of six from Deloit dressed as moonshine manufacturers and singing about a still. Those in the group were: Mr. and Mrs. Hodge and their two children, Mr. Belding and Mr. Shaw.

Second prize of \$15 for the best group went to a Janesville troupe representing six criminals and a warden from Sing Sing. Steve Schuler was the warden and the convicts were: Orin Scoville, D. Williams, Albert

North, P. Hallett, Josie Prox and Ed. Briley.

Other awards were made as follows:

Best dressed couple—First, \$10, Misses Hazel Powers and Edna Pederson, Evansville, as Kippie dolls; second, \$5, Owen Trevorrow and Dorothy Wagner, Janesville, as George and Martha Washington.

Best colored couple—First, \$10, Otto Trippe and Mrs. Fannie Daid; second, \$5, Mr. and Mrs. Mayford.

Most comical and entertaining couple—First, \$10, Misses Evelyn Burman and Leona Lloyd, Deloit, as spinster; second, \$5, Mrs. Samuel Malters and Mrs. Paul Kirchhoff, Janesville, as Mr. and Mrs. Jiggs.

Best clown, A. S. Hegg; best hobo, J. J. Varley; best farmer, E. J. Drummond; Scotchman, Robert Daily, Janesville; Red Cross nurse, Mrs. C. Paxton; cowboy, H. M. Hessemaier; colored woman, C. T. Hayward, Deloit. Each of this last group was given \$2.

A Good Piano

Can Once More Be Obtained at Small Cost

New low prices are in effect on the well-known Washburn Pianos and Player Pianos! Now, again, you can get a thoroughly dependable instrument at a very moderate figure.

This is the buying opportunity for which thousands have waited! They have hesitated to risk the purchase of a piano that might be "tin-panny" in ten years. But war-time costs put such good instruments as the Washburn beyond their reach.

A Lifetime Piano

Everywhere the Washburn Piano is known for uncommon durability. Thousands of these instruments have stood the rigors of ocean travel and are giving true satisfaction under the severe climatic conditions of tropical lands—of South America, of Asia, of Africa!

Scientific design and great care in construction assure this lasting goodness. They result, too, in musical quality rare among such moderate-priced pianos. The tone of the Washburn will delight you! It is round, reso-

nant, full, and sympathetic. And its sweetness remains unimpaired by time and use!

The Washburn Player

The Washburn Player Piano takes the same position of leadership! For in the good Washburn is incorporated the perfected Lyon & Healy-made Player. It is an instrument of true musical worth! It holds keen enjoyment for the first-time performer. And the trained musician, as well, finds in it unlimited opportunity for expression—to give his own interpretation to the music.

You Save \$100

At the new price level, the purchase of a Washburn Piano or Player Piano saves you fully \$100 from the usual price of competitive instruments. And you get an instrument that stands out as notably superior! In beauty of tone, skill of workmanship, and excellence of material, it has few rivals, except among those pianos whose claim to artistic pre-eminence is recognized.

See and hear these good instruments at your first opportunity! Why not come in tomorrow?

FIX CROSS ROADS, PLEA OF CARRIERS

Rural Mail Men Pass Resolutions, Elect Palmer as President.

Patrolling of cross roads as well as state and county trunk lines was favored at the annual meeting of the Rock County Rural Carriers' association at the city hall here Wednesday afternoon, when after a lengthy discussion a resolution to this effect was drawn up to be presented at the state convention at Wisconsin Rapids.

Serving his last year as a rural carrier, H. A. Palmer, Janesville, was honored by being unanimously elected president to succeed C. J. Anderson. Mr. Palmer has served for 15 years as a Janesville carrier, was one of the organizers of the Rock county association, has served terms as president and secretary, and been a delegate several times to state and national conventions.

It. A. Hangerford, Evansville, succeeded Daniel Kelly, Beloit, as vice president. Roscoe Pontius, Beloit, was re-elected secretary-treasurer. Delegates to the 1922 state convention are Messrs. Palmer, Anderson, Hangerford, and Pontius; J. C. Silles, Beloit, and Alexander Bruce, Edgerton.

Talk of Bad Roads
Interesting facts in regard to the men whom Congressman Cooper calls "members of the faculty of the great university in the country" were brought out at the meeting. The trials and tribulations of the "hardships" which the carriers of mail in the rural mail districts daily undergo were discussed.

The men brought out that postmasters, supposed to inspect the routes twice weekly, never pick a day when the weather is bad and consequently never see the roads when they are in poor condition. "Some of the roads are like remnants of a volcano, one said. About 100 miles of bad roads have asked to have the roads fixed and have put in a lot of time absolutely free."

Cement Hard on Horses
The men declared that traveling should be done on wet days, not on dry days, for the best results.

Mr. Palmer said that cement roads may be all right but they are hard on the horses' feet.

"County and town roads should be patrolled the year round," he said. "There is one county in Illinois where they patrol the county roads, and traveled 100 miles of road last year at less expense than building six miles of concrete road. Let us put the county, state and national carriers back of having cross roads fixed as well as trunk lines." (Applauds.)

A vote of thanks was given to five members to meet for the mutual benefit of the carriers and improvement of the service will be appointed by the president of the county organization.

A feeling of partnership and good fellowship, which prevailed at the national convention at Washington which made a rural carrier feel proud of his job—quite a different feeling from seven years ago—was told by H. A. Palmer and daughter, Carrie, who attended.

**BURY SHACKLETON
ON ICEBOUND ISLE**

New York—Gravelton, chosen by Lady Shackleton as the last resting place for the body of her late husband, Sir Ernest Shackleton, British explorer who died aboard his tiny craft "Quest" last Jan. 5, is an ice-bound island on the coast of 20 persons who cling to the frozen shores of South Georgia Island, called the "Gateway to the Antarctic."

Sir Ernest's body was brought from the Antarctic to Antofagasta following his death and will be accompanied by Captain Frank Huxley, a member of Shackleton's expedition, when it starts again on its journey into the polar regions.

Lady Shackleton's decision to halt removal of the body to England is in accordance with a lifelong wish of the explorer that he be laid to rest amid the scenes where his life work had been carried out.

At the outbreak of his last voyage he told friends he wanted "to die with his boots on, like an old sea-dog."

**3 MORE CASES OF
DIPHTHERIA HERE**

Three additional cases of diphtheria have been reported to the city health officer, Dr. Fred B. Welch, this week. Among them is F. S. Lamoreaux, one of the manual training teachers at the high school. He will be quarantined with his family for three weeks.

**Test Strength of
Southern Yellow Pine**

New York—Announcement is made at the testing laboratories of the department of civil engineering at Columbia university that it would be two months before experiments were completed to determine the strength of southern yellow pine and Douglas fir timbers available in commercial lumber yards in New York.

The tests are being made under the auspices of the superintendents of building in the city's five boroughs to establish equitable grading rules and working stresses for submission to the board of aldermen to be considered in connection with recommended revisions of the sections of the building code governing timber construction.

The New York Lumber Trade Association, Southern Pine association, West Coast Lumber men's association, and National Manufacturers' Association assisted in selections of specimens.

**OVER 100 BIRD
HOUSES ASSURED
NOW IN CONTEST**

Classes for the exhibits will be: Boys from 12 to 18, Girls 12 and under, and Children 12 and under.

Prizes in all four classes for boys and girls outside of \$100.00. A favorable mention for best entries from older persons.

Two prizes for school exhibits—going to the school. These will be sets of plans and other things useful in schools.

You want to know how to make bird houses, send to the Southern Cypress Company, New Orleans, La., and they will send a booklet on the subject. Watch the Gazette from day to day and see what directions are given.

For instance, you would not make the same bird house for a wren you would for a martin. Also, do not put wire in the house or shells in the outside drops off.

Did you know a coconut shell makes a nice wren house? Now the time to get in the contest. The Gazette is already assured of more than 100 exhibits. A contest to be held. The birds are our best friends. Give them a home.

He had promised to deliver the lectures and this he did, then left for Italy.

WOULD MAKE MAY 10 WORLD MEMORIAL DAY

(By Associated Press.)

St. Paul—International observance of May 10 each year as Memorial day is being urged by J. W. Hamilton of St. Paul, who has received commendation for his proposal from many prominent persons in Europe and other countries.

It is proposed to have a holiday for school children on that day, with suitable exercises in the day previous, "so as to bring to their plastic minds what the day means and what it can be made to mean for the future."

Expressions of approval for the plan have been received by Mr. Hamilton from Senator Wavriaski, Stockholm, member of the Inter-Parliamentary Union; Stephane Lauzanne, editor of Le Matin, Paris; Marion Sakatini, Tokio, and many others.

RAIN FOLLOWED BY COLD WAVE OVER WIDE TERRITORY

(Continued from Page 1.)

prevailed again Thursday throughout the northwest. The second day of the most severe storm of the year in this section, however, found the snow fall subsiding in the eastern part of the Dakotas.

Sweeping in from the Rocky mountains region, the storm which began Tuesday night, with lightning and thunder, snow, hail, sleet and rain, was rapidly moving eastward Thursday and conditions were reported as clearing up along the state line between Minnesota and North and South Dakota.

Winds ranging from 30 to 50 miles an hour swept the light snow in the Dakotas into huge drifts and blew over telephone and telegraph lines.

In Grip of Blizzard
Northern and southern Minnesota and western Wisconsin continued in the grip of the blizzard and snow was still falling early Thursday, piled high by fierce winds.

Duluth reported nearly 30 inches of snow, with drifts in many places more than 20 feet high. Except for occasional service on one line downtown, no street cars are running in Duluth. Members of the tank corps, national guard, in this city were out with their tanks in an effort to clear the way for a partial resumption of traffic.

Most trains out of Duluth were canceled, but service was started for the Twin Cities.

Trains Long Delayed
Railroads running out of the Twin Cities were making efforts to keep their crack trains running but many were from 2 to 24 hours late and several were reported stalled in the drifts.

Virtually all branch line trains were abandoned and no attempt was made to move freight.

Several men were slightly injured when a freight train on the C. & N. St. Paul railway west of Duluth, collided with a switch engine in the yards at Aberdeen, S. D.

The blinding snow storm was blamed for the accident.

Poles Strapped Off
Several hundred poles belonging to the American Telephone and Telegraph company between Tomah and Warren, Wis., a distance of about 100 miles, were snapped off during the sleet storm. As a result of this, communication between the Twin Cities and La Crosse and Chicago, was knocked out. Lincum said it would be several weeks before the damage could be repaired.

In some parts of southern Minnesota, the ground was covered with from one to three inches of ice.

Children skated to and from school. Seven high school students of Wadena, Minn., started eight miles to Fairmont on the public highway, which was covered with ice as smooth as glass. They returned the same way.

**STORM AND COLD WAVE
SWINGING TO EASTWARD**

Washington—The storm and cold wave which have made the northwest ice and snow bound will reach the Great Lakes region, the Ohio Valley, Tennessee and the east gulf states Thursday night or early Friday and will overspread the Atlantic coastal region by Friday night, according to the weather bureau.

The western storm had its center early Thursday over the upper middle region and, with its progress toward the east-northeastward, cold wave warnings were issued for lower Michigan, the Ohio Valley, Tennessee and the east gulf states.

Generally the cold wave portion of the disturbance will be preceded, as in the northwest, by snow or rain.

**ICE JAM IN MILWAUKEE
RIVER THREATENS SEVERE
MILWAUKEE**—The weather bureau

forecast a cold wave for late Thursday and Friday, with the temperature going down to six above.

A flood, the result of rain and sleet during the last two days, threatens the extinction of Suny Point a settlement of gardening establishments and homes in the town of Milwaukee, because of ice which is damming the Milwaukee river and causing the water to rise with great speed, according to Carl Heim, president of the Suny Point Advancement association.

Deputy sheriffs now are making preparations to dynamite the ice jam to prevent further menace to property.

Suny Point is along the east bank of the Milwaukee river, near the junction of the Port Washington road and the Bender road.

River High at Wauwatosa
In the city of Wauwatosa, a western suburb, crushed rock had to be piled along the banks of the Menominee river at the city park to prevent the river from overflowing its banks.

The cold wave is expected to prevail over the western part of the state, while in the northern and western parts temperature near zero are looked for. Snow and a high wind from the northwest were expected to accompany the drop in Milwaukee.

Telegraphic and telephonic communication with the northern and western parts of the state, which broke down Wednesday as a result

of the sleet storm, was today still badly crippled. Train service, which was affected only slightly Wednesday, was delayed Thursday.

**COLD WAVE EXPECTED
TO FOLLOW SNOWSTORM**

Madison—A heavy snow storm was sweeping Wisconsin Thursday, hampering train service and seriously crippling communication, according to reports at the weather bureau here. Following on the rain and sleet, which Wednesday covered most of the state with a layer of ice, came the snow Thursday, accompanied by strong winds.

The sky was clearing in Madison toward noon, after two days of rain and snow, but reports from the north and west of here tell of a continuance of the storm which already has practically cut off communication by telegraph and telephone and slowed up train service.

At La Crosse, which is practically isolated from the rest of the state, a heavy snow is falling, the weather bureau reports. Sleet which fell Wednesday night at Green Bay turned to snow Thursday, with precipitation of two inches.

The Wisconsin weather report predicts that clear weather will come toward evening, accompanied by a cold wave in the southern part of the state.

CANNIBALISM IN FAMINE REGION IS TOLD BY OFFICIAL

Stockholm.—Sweden's premier, Hjalmar Branting, has received a telegram from Consul General Ekstrand, head of the Swedish relief commission at Samara, Russia, telling of cannibalism in the Volga famine district, previously reported by Dr. Fridtjof of Nansen. He says: "The terrible sufferings of the population here forces me to address a famine appeal to Sweden's government and people to help still more in fighting one of the cruellest and worst disasters in the history of humanity. There are places in the famine district where people endure such misery that it leads to cannibalism. Corpses have already been eaten. They are now beginning to kill people to eat them. In spite of Sweden's present difficulties I beseech the Riksdag in the name of human charity to grant the support requested."

TARIFF INVOLVED IN NEW TANGLE OF WORLD FINANCES

(Continued from Page 1.)

imately \$12,000,000 to pay six months' interest on her indebtedness to America—in gold, in goods and in services, such as freight carrying. Gold can be transferred only if America buys of Europe. Should the American people indulge in the purchase of foreign commodities, this would tend to help the situation, but Americans have been slow in the past to invest heavily in European businesses.

Tariff Held Hindrance
The export of goods would be payment for debts to America, would help Europe but the tariff laws under consideration in Congress will tend to reduce the amount that Europe can sell more. If it ever comes to a question of permitting foreign manufacture to flood American markets, and hurt American industries, the tendency would be to foreign payment of foreign debts and keep American industries going.

But there is a mean between two extremes—a line below which American cannot go, and get some simple protection to American industries or above which it is still possible for Europe to find a market for her commodities in the United States. It is the difference between a prohibitive tariff and a competitive tariff. It is a hard line to find, but economists never have easy tasks, anyway. The effect of the statements by

former Minister Lecomte of France and Ambassador Ricci of Italy will be to crystallize opinion on the necessity of taking into consideration the foreign debt phase of the tariff question. The United States chamber of commerce and many foreign trade organizations have been saying the same thing as the French and Italian spokesmen and have been urging caution in handling the tariff. An indication has been responsible for the successive delays encountered in the high protectionist gestures in the last year. If it had not been for the foreign trade question, the republican party would long ago have passed an old-fashioned tariff.

The first game of excuses and pretexts, political and economic, for non-payment of the American debt, has begun. The American, optimistic has hardly been started, though Senator McMillan McCormick of Illinois recently gave Europe a surprise by putting through the senate, without any difficulty whatsoever, a resolution inquiring how European governments were spending their money. Europe took offense at that—the French press is still saying harsh things about Mr. McCormick's query. But when the American funding commission starts work, it will ask more pertinent questions and tell Europe some more facts about the origin of the ten billions which were loaned during the war.

Why So Much for Armistist
In the first place, America wants to know why so much is being spent on land armament and why some of that fund could not be used to pay interest and principal on the allied war debt. France says she needs the money because Germany will not pay. America and Great Britain will probably be compelled in the end to draw from Germany such definite assurances with respect to the amount she can pay as to make unnecessary the maintenance of large military forces on the continent. In the second place, the fact that the American government didn't take the ten billions out of a surplus fund or a rich treasury but borrowed it from twenty seven million persons—men, women and children—has yet to be explained to the European financiers. The American government cannot cancel without the consent of virtually the entire electorate, which besides losing on its original investment, would have to be taxed further to pay interest or principal on the liberty loans themselves. Such a course isn't for a moment considered here.

Recovery Is Rapid
In answer to the French and Italian pessimism, the tendency in official circles is to tell Europe not to be so disconsolate about its own future and to point out what remarkable progress has already been made in reconstruction. The recovery of Europe is in many respects greater than was anticipated. In such circumstances instead of imagining that 25 years hence Europe will be bankrupt, the American debt commission will

225 PRODUCING OIL WELLS
Mexico City.—Mexico has 225 producing oil wells with a daily capacity of 3,905,423 barrels, according to a recent statement by the department of commerce and industry. More than 575,000,000 barrels of oil were produced in Mexico in the year 1921, the department reports.

WAR ON FAKE SALES
St. Louis.—Advertising abuses and their correction was the subject of several addresses here before the opening session of the mid-winter meeting of the National Better Business commission. The session will continue through Friday. Campaigns in the newspapers against "wreckers" or sales organizations that "hoist illegitimate sales" on the public have proved successful in the city of Washington. F. N. Wholley, manager of the Washington bureau of the commission, declared.

22 NATIONS, ALL RACES REPRESENTED IN PUBLIC SCHOOLS

Enrollment of the public schools is made up of many races, with representatives of 22 lands and all five races—white, red, yellow, brown, and black. According to figures compiled by Miss Rosemary Knight there are 44 children of foreign birth in the public schools.

Thirty-six of these came from Canada, Italy, and Syria, 10 having been born in Italy, 9 in Canada, 8 in England, and 9 in Syria.

Other countries and places, which help to make the schools cosmopolitan are: Austria, 1; Belgium, 2; China, 1; Cuba, 1; Denmark, 1; Canal Zone, 1; Germany, 2; high seas, 1; Hungary, 1; Ireland, 2; Philippine Islands, 1; Poland, 1; Prince Edward Island, 1; Russia, 2; Sweden, 2; Switzerland, 1.

Ancient Marne Taxis Replaced by Modern Cars

Paris.—The veterans of the Marne, those ramshackle, broken-down taxis which every American visitor to Paris has had to dodge on the Paris boulevards, have been permanently retired and replaced by 3,200 modern comfortable taxicabs.

The forbidding appearance of the old "cruisers" seemed to have an ill effect on the drivers and hope is expressed by many Parisians that the new machines will also mark the passing of the disreputable chauffeurs who are considered as ill-mannered as their machines are old.

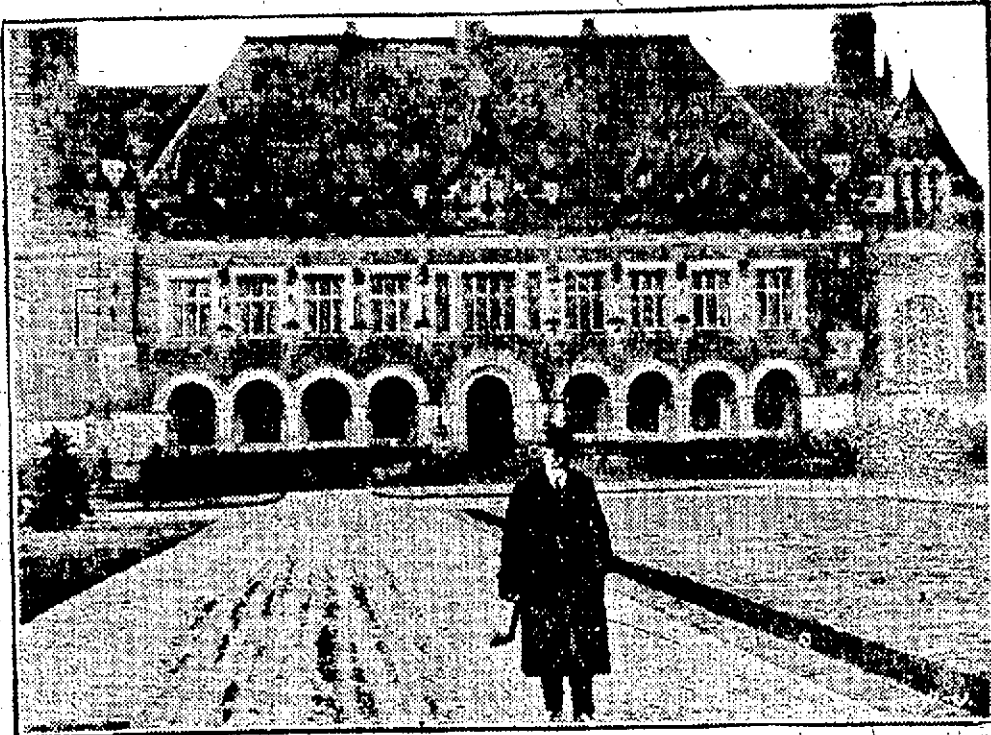

The taxicabs were placed in service in 1905. In 1914 they were mobilized by General Gallieni, then military governor of Paris, who crowded his army into them and rushed them to the battle of the Marne, where they aided in the success of the famous flanking movement that saved Paris and defeated the Germans.

FIRES DEVASTATE N. S. W. FIELDS
Sydney, N. S. W.—Bush fires have been devastating some of the richest of the western districts of New South Wales for more than a week and the affected zone now embraces approximately 80,000 acres, bounded by walls of flame over 100 miles long. Men have been fighting the fire day and night inside this area.
